HIGH SCHOOL BACKGROUND OF FIRST-TIME STUDENTS
UNIVERSITY OF HAWAIʻI, FALL 2008

Total first-time student enrollment for the University of Hawaiʻi system measured 8,803 for Fall 2008, a 13.5% increase from Fall 2007 (Table 1 and Figure 1). Enrollment of first-time students from Hawaiʻi high schools measured 6,735, a 12.9% increase from Fall 2007 (Table 1A). Enrollment of Hawaiʻi public high school graduates increased 13.4% to measure 5,598, while enrollment of Hawaiʻi private high school graduates increased 10.2% to reach 1,137. Enrollment of students from the U.S. mainland measured 1,120, a 13.0% increase from Fall 2007, while 416 students came from foreign countries and U.S. related areas, a 19.2% gain.

The going rate of Hawaiʻi recent high school graduates (those who completed high school within the previous academic year) into the University of Hawaiʻi system measured 37.8% in Fall 2008, an increase of 3.2 percentage points from Fall 2007 and the highest going rate since Fall 1995 (Table 4 & Figure 5). The going rate of public high school graduates measured 39.1%, while the going rate of private high school graduates measured 33.0%.

The number of high school graduates for the State of Hawaiʻi in June 2008 measured 14,622, a 5.8% increase over June 2007 (Table 4 & Figure 2). Overall the number of high school graduates has grown since the early-1990s, increasing by 2,947 (25.2%) since June 1993. WICHE has forecast further increase through academic year 2008-09, followed by a gradual decline through academic year 2019 (Figure 14).

While the number of Hawaiʻi high school graduates has been increasing in recent years, the going rate of those graduates into the UH campuses has declined since the late 1990s (Table 4 and Figure 5). The increases in Fall 2007 and 2008 may signal a reversal of this trend. Overall, however, the total UH system going rate is well below the peak reached in 1972, when it measured 46.3% (Figure 6).

First-Time students from the U.S. mainland have increased in recent years, from 8.5% of the total in Fall 1998 to 12.7% in Fall 2008 (Figure 4). Although the great majority of first-time students are from Hawaiʻi (76.5%), first-time freshmen from outside the state accounted for 17.4% of the total for the UH system in Fall 2008, 30.9% at UH Mānoa and 25.9% at UH Hilo (Table 1).

UH-West Oʻahu admitted its initial class of first-time freshmen in Fall 2007. The total count of first-time freshmen was 35, with 32 of them from Hawaiʻi high schools. In Fall 2008 the counts grew to 74 total, with 69 (93.2%) from local high schools.

Since Academic Year 1998, total enrollment in Hawaiʻi public schools has declined 5.8%, from 189,281 to 178,369. Over this same period, enrollment in Hawaiʻi private schools has increased from 32,566 to 36,805, a 13.0% increase. For regular high school seniors, the percentage increases over this period measured 3.8% for public schools and 26.0% for private schools (Figure 13).
