ACM 495: HMI (HAWAII MEDIA INC)

Call for Interns for Spring 2016

The Academy for Creative Media will be selecting student intern candidates for the ACM – HAWAII MEDIA INC Internship Program for Spring 2016.

Hawaii Media Inc. is offering internship opportunities for students to learn the equipment and operations of a rental house for the film and TV industry. Interns would learn “hands-on” to operate, test, and maintain a wide variety of production equipment including grip, lighting, and camera gear. Students could also learn basic electronics in the repair of lighting instruments and power supplies. Interns would be expected to physically participate in the loading and unloading of trucks, as well as the warehousing of equipment.

Applicants should be ACM UHM majors who have completed ACM 310, and ideally, ACM 312 (or have been a DP on an advanced cinematic production). Applicants should email a cover letter of interest (focus on cinematography) and a CV to Dean Des Jarlais <dean@hawaiimedia.com>

and cc Anne Misawa <amisawa@hawaii.edu>

If accepted, registration in an ACM 495 for 3 credits as an ACM internship class is required for eligible ACM majors by contacting Anne Misawa <amisawa@hawaii.edu>.
