Knowledge Management = Better Decisions

Data → Information → Knowledge → Understanding

I. I. II. II. I.

Good → Great

Urgent Not Urgent

I. Crisis Pressing Deadline
II. Prevention Relationships Opportunities Planning
III. Interruptions Some reports Some Meetings Some Process
IV. Administration Busy Work Time Wasters

UNCLAS
Closing Thoughts

• Is the proposal likely to succeed?  
• What might be the consequence of failure?  
• Is it in the realm of practicability of materials and supplies?

If I had only 1 hour to save the world, I would spend 55 minutes defining the problem and only 5 minutes finding the solution.
4th Annual ARL Lighting Rounds

• Bring technology and user community together in order to ..... 
• PDS
  – Priorities
  – Deliverables
  – Measures of success
• Communities of interest –
  – List of attendees
  – Identify attendee roles and interests
• Resources
• Next Steps
  – Enable/facilitate collaboration
  – Prioritize
