Narrative

Instructions: Complete each section below and clearly indicate “None” or “N/A” where appropriate.

I. INTRODUCTION:
A. Provide an overview of the College/School/Department and a snapshot outlining the current situation of the unit(s) involved in the reorganization.

The Office of Campus Services is one of five (5) groups reporting to the Office of the Vice Chancellor for Administration, Finance, and Operations (OVCAFO). This office has the functional responsibility for the major ancillary services necessary to operate the campus. These include transportation services, parking operations, food services, bookstore operations, faculty housing, campus security & emergency management, and commercial enterprises. The functions of Campus Services are grouped under the following major categories:
- Auxiliary Enterprises
- Campus Security & Emergency Management
- Commercial Enterprises

To augment the approved changes made under the December 2010 OVCAFO reorganization, this proposal seeks to move and reclassify the vacant Director position in Auxiliary Enterprises to the Office of Campus Services to oversee the above three (3) units.

B. Specify the objectives/goals of the new/restructured unit(s) involved in the reorganization.

This action will provide the above three (3) units with a cohesive leadership base, facilitating the efficient use of resources and promoting greater communication and coordination of efforts among the service groups to better meet campus needs and priorities.

II. RATIONALE FOR THE REORGANIZATION:
A. Provide background and relevant historical information.

The current organizational chart for the Office of Campus Services was approved in early December 2010 to oversee Auxiliary Enterprises, Campus Security & Emergency Management, and Commercial Enterprises to reflect the way service functions have transitioned since the previous reorganization in February 2005. Under the December 2010 approved reorganization, the Assistant Vice Chancellor, #89271 (O) position in the
Office of Campus Services was moved and re-described to oversee the duties and responsibilities of the Office of Facilities & Grounds. This position was critically needed to manage the overall campus infrastructure, address the backlog of maintenance work orders, and propel campus energy usage toward sustainable options in accordance with approved campus plans and objectives.

B. Provide a detailed explanation of the conditions and/or factors prompting the proposed reorganization and how they will be addressed by the reorganization. Explain why the current organization is inadequate and whether the reorg is consistent with the University's strategic, program, and financial plans.

With the recent retirement of the Director of Auxiliary & Commercial Enterprises in 2010, a review of the overall operations found that it would be most beneficial to move the vacant Director position to the Office of Campus Services to oversee Auxiliary Enterprises, Campus Security & Emergency Management, and Commercial Enterprises. This move will provide the three (3) service units with leadership to exercise purposeful and efficient utilization of resources, foster accountability, increase communication and coordination between the service groups, and promote transparency to better serve the campus community and priorities of UH Mānoa.

Commercial Enterprises is a new entity that will eventually house all commercial operations including Central Stores, Kulanui products, Rainbowtique stores, internet sales, and educational tours. The Director of Campus Services will greatly assist to ensure the successful development of this venture as it moves forward.

C. Explain other alternatives explored.

N/A

D. Explain how the proposed changes will affect current relationships and workflows, including impact on services and relations with other University segments.

The above change will facilitate greater transparency, collaboration, accountability, and communication between the three (3) service units, with the campus community, and University constituents. The focus and increased interactions between the units will enable the Office of Campus Services to work with University groups in meeting campus priorities and to service the needs of the Mānoa campus and the surrounding community with greater efficiency.

E. List the groups that will be impacted by the reorganization and indicate whether they have been informed/consulted.

This reorganization has been discussed and agreed to by the responsible heads of Auxiliary Enterprises, Campus Security & Emergency Management, and Commercial Enterprises, and the following campus groups:

- Mānoa Office of the Chancellor
Mānoa Budget
Mānoa Finance and Accounting
Mānoa Human Resources
HGEA
  ° Manoa Faculty Senate (per A. Sakuma, 3/14/11)

F. Outline the benefits that will be achieved by the reorganization, including efficiencies and service improvements. Explain whether the supervisor/subordinate reporting relationships are properly identified and whether the reorganization will minimize confusion over authority, roles, and responsibilities.

This reorganization of the Office of Campus Services will provide the campus community with improved campus services through better coordination and communication between Auxiliary Enterprises, Campus Security & Emergency Management, and Commercial Enterprises. This change will ensure a positive and safe campus environment through greater campus community feedback and increased awareness and access to services.

The supervisor/subordinate reporting relationships are properly identified in the proposed organizational charts for the three (3) service functions, minimizing confusion over authority, roles, and responsibilities.

III. IMPACT ON RESOURCES AND THE UNIVERSITY

Provide a detailed description of the resource requirements and the programmatic impacts of the reorganization on the University.

A. Impact on budget resources:
1. What is the estimated cost of the reorg? None
2. Are additional funds needed? No
   If so, how will the cost of the reorg be funded? N/A
3. Will the reorg result in cost savings or be cost neutral?
   This reorganization is expected to be cost neutral because the counts and funds of the Director and Secretary III position in Auxiliary Enterprises will be moved and reclassified to the Office of Campus Services.

B. Impact on operational resources:
1. What is the overall impact on faculty and staffing responsibilities, if any? Explain reasons for the anticipated changes/relocation/reassignment/etc.

   The reporting relationship for the responsible heads of Auxiliary Enterprises, Campus Security and Emergency Management, and Commercial Enterprises will change to the Director of Campus Services. No impact on staffing responsibilities within each of the three (3) service units is anticipated.

2. Will additional faculty/support personnel be required? No
If so, what is the plan to obtain the additional faculty/staffing to successfully implement the reorganization? N/A
What is the impact of the increase? N/A

3. Will there be a reduction in faculty/staff? No
If so, what steps are planned or have been taken to ensure proper consultation? N/A
What is the impact of the reduction? N/A

4. Identify the positions impacted by position number, classification title, and anticipated changes.

The positions impacted by this reorganization are as follows:
O = Position occupied V = Position vacant
- Director of Auxiliary & Commercial Enterprises, #89251 (V) Special Funds
  - Move from Auxiliary Enterprises to the Office of Campus Services and reclassify to oversee Auxiliary Enterprises, Campus Security & Emergency Management, and Commercial Enterprises. No change in funding source.
- Secretary III, SR-16, #13644 (O) Special Funds
  - Move from Auxiliary Enterprises to the Office of Campus Services. Will continue to report to the Director, #89251. No change in funding source.

5. Will there be changes to supervisory/subordinate relationships? Yes
If so, identify the impact. Will the changes streamline operations, reduce supervisory span of control, etc.? Yes

The responsible heads of Auxiliary Enterprises, Campus Security and Emergency Management, and Commercial Enterprises will change to report to the Director of Campus Services.

Based on the proposed reorganization, position descriptions for impacted positions will be submitted for update to reflect the appropriate new supervisors and duties and responsibilities. No impact to the banding levels is anticipated.

C. Impact on space resources:
Will additional space outside own resources/allocations be required? No
If so, has the Vice Chancellor for Administration, Finance, and Operations (VCAFO) or designee been consulted? N/A

Executive Summary

Instructions: Complete each section below and clearly indicate “None” or “N/A” where appropriate.

I. **Purpose:**
   Explain the purpose of this reorganization and the anticipated overall impact.

   This reorganization is to augment the changes approved under the Reorganization of Mānoa Chancellor’s Office in February 2005 and to formally reflect current operational workflow that has improved the efficiency of the Office of the Vice Chancellor for Administration, Finance, and Operations (OVCAFO) to better meet the responsibilities of this Office. Since the 2005 reorganization, a new Chancellor and three (3) Vice Chancellors (Academic Affairs, Students, and Administration, Finance, and Operations) have been hired to manage the UH Mānoa campus. The Vice Chancellor for Research and Graduate Education was appointed in December 2004. With a new team in place, the functions of this Office have been fine-tuned and workflow improvements made to promote a positive, innovative, and safe campus environment through accountability, transparency, and quality service. This reorganization formally reflects current operational workflow and thus the impact to affected units and individuals will be very minimal, if at all.

II. **Major Elements of the Proposal:**
   Explain or list the key changes being proposed in this reorganization relative to purpose and results.

   This reorganization proposes to:
   A. Merge the functions of Campus Security and Civil Defense into one unit under **Campus Security and Emergency Management**
   B. Expand the functions and services of **Campus Services** to include:
      1. Auxiliary Enterprises;
      2. Campus Security and Emergency Management; and
      3. Commercial Enterprises
   C. Abolish the **Services** unit and the functions **Information and Educational Technology Services** and **Community Relations**
   D. Move the reporting line of **Office of Physical, Environmental, and Long Range Planning** from the Office of Financial Resources Management directly to the OVCAFO
   E. Move the reporting line of **Facilities and Grounds** from the Office of Campus Services directly to the OVCAFO via the **Office of the Assistant Vice Chancellor for Facilities and Grounds**.

   The changes being proposed are at the higher reporting levels with some movement of functional areas to formally reflect current workflow.

Narrative

_Instructions_: Complete each section below and clearly indicate “None” or “N/A” where appropriate.

I. **INTRODUCTION:**
   A. Provide an overview of the College/School/Department and a snapshot outlining the current situation of the unit(s) involved in the reorganization.

   The Office of the Vice Chancellor for Administration, Finance, and Operations (OVCAFO) at UH Mānoa currently consists of five (5) administrative departments reporting directly to the Vice Chancellor. This proposal groups core functions into administrative departments reflecting the way services are currently provided.

   B. Specify the objectives/goals of the new/restructured unit(s) involved in the reorganization.

   In order to better fulfill the responsibilities of this Office, the departments under the OVCAFO will be grouped, as indicated above, by clear service functions necessary to manage and plan for campus operations the size and complexity of UH Mānoa.

II. **RATIONALE FOR THE REORGANIZATION:**
   A. Provide background and relevant historical information.

   The current organizational charts were approved under the Reorganization of Mānoa Chancellor’s Office in February 2005. Since then, the working relationships and reporting structures were adjusted as the responsibilities of the vice chancellor offices were fine-tuned and the roles and relationships effectively developed and aligned to provide UH Mānoa with the capacity necessary to accomplish and manage its affairs. This reorganization reflects the way critical functions have transitioned since the February 2005 reorganization to better meet the responsibilities of this Office.
B. Provide a detailed explanation of the conditions and/or factors prompting the proposed reorganization and how they will be addressed by the reorganization. Explain why the current organization is inadequate and whether the reorg is consistent with the University's strategic, program, and financial plans.

The current OVCAFO organizational structure requires modification as the University of Hawai`i at Mānoa (UHM) moves forward to “right size” as a campus to fulfill its mission and priorities by exercising purposeful and efficient utilization of resources, fostering accountability, building institutional integrity, and promoting transparency. The duties and responsibilities of the Office encompasses a wide range of functions including financial management, budget preparation, human resource administration, facilities and grounds, capital improvements, physical and space planning, commercial enterprises, campus security & emergency management, and auxiliary enterprises.

In order to accomplish the University’s mission and to service the Mānoa campus with greater efficiency, the following changes to the OVCAFO organizational structure are proposed:

<table>
<thead>
<tr>
<th>O</th>
<th>V</th>
</tr>
</thead>
<tbody>
<tr>
<td>Position occupied</td>

</tr>
</tbody>
</table>

- **Office of Financial Resources Management**
  This Office will concentrate its responsibilities on campus budget matters including administering the biennial and supplemental budget process, implementing the annual campus operating budget, managing the Chancellor’s Office budgets, and having greater focus in providing fiscal and compliance training and support to campus fiscal officers (proposed Chart V-A). This Office will work closely with the System Budget Office and campus units to ensure fiscal accountability and transparency. The two sub-units reporting to the Office will be the Mānoa Budget Office and the Office of Finance and Accounting. All existing positions within the two (2) remaining subunits under the Office of Financial Resources Management (Mānoa Budget Office and the Office of Finance and Accounting) will remain unchanged and intact.

- **Campus Security & Emergency Management**
  To consolidate key campus service functions under the Office of Campus Service, it is proposed that the units and functions of Campus Security and Civil Defense be merged into **Campus Security & Emergency Management** reporting to the **Office of Campus Services**. This change will improve communication and efficiency and ensure a safe and secure campus environment with both sections working together as one (1) unit. The current position under Civil Defense, **Administrative Officer, PBB, #77246 (O)** will report to the **Auxiliary & Facilities Services Officer, PBC, #80477 (O)** which will lead this combined unit. Therefore, the two (2) unestablished, pending positions (Director and Secretary II) currently under this Office will no longer be necessary.
• **Campus Services**  
Currently, the Office of Campus Services oversees Auxiliary Enterprises, Commercial Enterprises, and Facilities & Grounds. To better service the needs and requirements of the University, it is proposed that the functions and services of the Office of Campus Services be expanded and consolidated to include Auxiliary Enterprises, Campus Security and Emergency Management, and Commercial Enterprises (proposed Chart V-C). This action will facilitate the efficient use of resources and greater communication and coordination of efforts among the service groups to better meet the needs of the campus community and the priorities of UH Mānoa. Commercial Enterprises is a new entity that will eventually house all commercial operations including Central Stores, Kulanui products, Rainbowtique stores, internet sales, and educational tours. Under this proposal, no positions are affected by this realignment and creation of Commercial Enterprises.

The functions of Facilities & Grounds will report directly to the Vice Chancellor, via the Office of the Assistant Vice Chancellor for Facilities and Grounds (proposed Chart V-E).

• **Office of Physical, Environmental, and Long Range Planning**  
Currently, this Office reports to the Office of Financial Resources Management. Due to the campus-wide responsibilities of this Office which include long-range development planning, space management, and developing a comprehensive environmental policy in support of sustainability goals, it is proposed the reporting line be moved directly to the Office of the Vice Chancellor of Administration, Finance, and Operations (proposed Chart V-D). This unit will work in partnership with the Office of Facilities and Grounds and various campus groups to incorporate design standards and sustainability principles into the planning, operational, and educational framework of the Mānoa campus.

• **Facilities and Grounds**  
Presently, this Office reports to the Office of Campus Services. It is proposed that this Office report directly to the Office of the Vice Chancellor for Administration, Finance, and Operations via the Office of the Assistant Vice chancellor for Facilities and Grounds to manage the overall campus infrastructure, address the backlog of maintenance work orders, and propel campus energy usage toward sustainable options in accordance with the approved short-range and long-range development plans of the campus (proposed Chart V-E). This Office will work closely with the Office of Physical, Environmental, and Long Range Planning and other campus groups to ensure efficiency and sustainability in the operation and maintenance of physical facilities and grounds for the University of Hawai‘i at Mānoa.

The Assistant Vice Chancellor, #89271 (O) will oversee the operations of Facilities & Grounds. The position description for #89271 will be updated to reflect the duties and responsibilities of managing this campus-wide operation. All other existing
positions under the Office of Facilities and Grounds will not be affected by this reorganization.

- **Services**
  - **Information and Educational Technology Services**
    The functions of this Office are currently being fulfilled by Information Technology Services (ITS) and thus, we propose to abolish this function under the OVCAFO to eliminate duplication. There are currently no positions in this office and thus, this action will not affect any positions.

  - **Community Relations**
    The functions of this Office are being fulfilled by the Office of Communications under the Chancellor and the respective offices of the Vice Chancellors. Therefore, it is proposed that this function be eliminated under the OVCAFO. The positions under this office have been abolished and thus, this action will not affect any positions.

C. Explain other alternatives explored.

   N/A

D. Explain how the proposed changes will affect current relationships and workflows, including impact on services and relations with other University segments.

The above changes facilitate transparency, collaboration, accountability, and communication between the five (5) units reporting directly to the VC and with the campus community and University constituents. These proposed changes also reflect the way current operations are actually managed. The focus and increased interactions between the units will enable the OVCAFO to work with University groups in meeting campus priorities and to service the needs of the Mānoa campus and the surrounding community with greater efficiency. The actions of the OVCAFO units that result from this reorganization will play a major part in boosting the integrity and trust of UH Mānoa, both on and off campus.

E. List the groups that will be impacted by the reorganization and indicate whether they have been informed/consulted.

The reorganization has been discussed and agreed to by the responsible head of each unit reporting to the VC and the following campus groups:
- UH Mānoa Office of the Chancellor
- Mānoa Executive Team
- Mānoa Faculty Senate
- Mānoa Budget
- Mānoa Finance and Accounting
- Mānoa Human Resources
- HGEA
F. Outline the benefits that will be achieved by the reorganization, including efficiencies and service improvements. Explain whether the supervisor/subordinate reporting relationships are properly identified and whether the reorganization will minimize confusion over authority, roles, and responsibilities.

The reorganization of the OVCAFO unit will provide the campus community with the following benefits:

- accurate and transparent financial and operational data to assist departments and units in making better decisions regarding their programs and services
- faculty and staff training provided in the areas of human resource management and fiscal compliance
- dedicated focus on physical, environment, and long range planning with an emphasis on building a sustainable campus through partnerships with University groups and departments

VIA: Kathleen Cutshaw
     Vice Chancellor for Administration, Finance & Operations

FROM: Deborah Huebler
      Assistant Director, Auxiliary Enterprises

SUBJECT: Reorganization Proposal for Duplicating Services

SPECIFIC ACTION REQUESTED:
We request your approval of a reorganization which will eliminate Duplicating Services.

RECOMMENDED EFFECTIVE DATE:
Upon your approval.

ADDITIONAL COST:
No additional cost are associated with this reorganization.

PURPOSE:
The purpose of this reorganization is to follow-up on the UH Mānoa prioritization summary of various administrative units. The Office of Auxiliary Enterprises participated in the UH Mānoa prioritization process, and made several program evaluation and prioritization recommendations. At the time of the prioritization, Duplicating Services was in the process of forming a business plan to become a self-sufficient retail operation with the objective of reducing or eliminating its need for general funding. However, after cost analysis studies were conducted, it was determined that this was not feasible because the program could not be self-sufficient. Therefore, the Duplicating Services program functions will be reduced, the duplicating facility will be closed, and existing staff will be reassigned as a result of these changes.

BACKGROUND:
Pursuant to Administrative Procedure A3.101 University of Hawai’i Organizational and Functional Changes dated March 2008, reorganizations that:
   a) do not have an impact on BOR policy and/or laws;
   b) do not create, eliminate or significantly change responsibilities of programs reporting directly to the Board or President;
c) do not incur significant additional expenses; or

d) do not have significant programmatic impact on the University may be approved
under delegated authority by the Chancellor for reorganizations that are two (2)
supervisory levels below (APM A3.101, Section 3b).

This reorganization proposal has been reviewed and discussed with appropriate units
and staff members. The details of the reorganization are outlined in the attached
Executive Summary and proposal.

ACTION RECOMMENDED:
It is recommended that the attached reorganization proposal for Duplicating Services be
approved.

PROPOSED REORGANIZATION
OF THE UNIVERSITY OF HAWAI’I
OFFICE OF THE CHANCELLOR, UH MĀNOA
OFFICE OF AUXILIARY ENTERPRISES
DUPLICATING SERVICES
JUNE 2010 (Revised August 2010)

SUMMARY

The purpose of this reorganization is to abolish Duplicating Services and to place the three (3) affected staff members in appropriate positions within Auxiliary Enterprises.

PRESENT ORGANIZATION

The Office of Auxiliary Enterprises is one of the major offices reporting to the Vice Chancellor for Administration, Finance, & Operations. The Auxiliary Services programs under the Office of Auxiliary Enterprises include a variety of general funded and revenue generating programs, such as Duplicating & Mail Services, Faculty Housing & Food Services, and Parking & Transportation Services. The Auxiliary Services programs provide institutional support for the University of Hawai’i at Mānoa campus. The Bookstore system is also part of Auxiliary Enterprises, and operates bookstores at eight (8) campuses throughout the University of Hawai’i system. The Administrative Services section provides fiscal, personnel, and information technology support for all Auxiliary Enterprises programs.

PROPOSED REORGANIZATION

It is proposed that the following actions take place for Duplicating Services:

1. Eliminate all centralized duplicating services functions and close the duplicating services facilities.

2. Abolish one (1) vacant position in Duplicating Services due to this proposed functional change, Printshop Supervisor I (position #05052).

3. Reassign and redescribe three (3) filled positions to other areas of Auxiliary Enterprises. The affected positions are Offset Press Operator II (positions #00784, #03456, #19022). It is proposed that position #19022 be reassigned to Parking Services, to assist with customer service and clerical duties at the Parking Office located in the Student Services building; and also within the Parking Manager's office located at the Auxiliary Services building. Positions #00784 & #03456 would be reassigned to the Receiving section of the Bookstore, and would assist with shipping, receiving, and warehouse functions for the Bookstore system.

BACKGROUND/REASONS OF THE PROPOSED REORGANIZATION

The Office of Auxiliary Enterprises participated in the 2009 UH Mānoa prioritization process, and made several program evaluation and prioritization recommendations. At the time of the prioritization, Duplicating Services was already in the process of assessing the feasibility of
becoming self sufficient through recharging all University departments for services, thereby eliminating its need for general funding.

During the past several years, there has been a steady trend in moving towards a more paperless environment. The UH Mānoa Strategic Plan for 2002–2010 stated strategic imperatives to promote the use of technology, and to modernize administrative information systems to reduce the paper environment and streamline business services. In many cases, paper distribution is no longer needed, as high volume paper copies have been replaced by scanning documents, email attachments, and links to websites. This has resulted in a more efficient use of resources and cost savings to individual departments, and a decreased reliance on centralized reprographic services.

Also, most University departments already have their own reprographic equipment capable of handling high volume copies in-house; and the Satellite Copier Program operating out of Auxiliary Services offers bulk-buying discounts for leases of this type of equipment. In addition, the Curriculum and Research Development Group’s Marketing and Publications Services (MaPS) located on campus specializes in graphic design, web development, printing and marketing services.

The above circumstances, combined with the budget cuts being experienced by the University, contributed to the conclusion that revenue projections for recharging all University departments for reprographic services could not be deemed sufficient to sustain operations.

There are four (4) positions in Duplicating Services, including one (1) vacant position that will be abolished. It is proposed that the remaining three (3) Duplicating Services employees be reassigned to other areas of Auxiliary Enterprises. The Auxiliary Enterprises programs that can accommodate the additional positions are Parking Services and Mānoa Bookstore. These three (3) positions can be reassigned and redescribed.

As stated in the 2009 UH Mānoa prioritization summary, parking continues to be in high demand at the UH Mānoa campus. It is proposed that one (1) Offset Press Operator II position (#19022) be transferred to Parking Services and redescribed, in order to provide better customer service and enhance the operations of the parking office, which is a self-sustaining operation.

Another self-supporting operation is the University Bookstore System. It is proposed that two (2) Offset Press Operator II positions (#00784, #03456) be transferred to the Mānoa Bookstore Receiving section and redescribed. The Receiving section is responsible for receiving, shipping, and storage of merchandise for the Mānoa store. It is also responsible for merchandise transfers to seven (7) branch bookstores at other UH campuses. Incremental increases in sales each year, planned expansions for the Bookstore System, and the recent centralization of the buying functions in some departments, have and will continue to significantly increase the volume of merchandise handled by the warehouse and receiving departments. The transfer of the two Offset Press Operator II positions would help address the greater workload resulting from the increased handling and transfers of merchandise from the Mānoa stores to branch stores.
ALTERNATIVES CONSIDERED

This type of program reduction would normally result in a Reduction-In-Force (RIF) process. Because other departments (specifically Parking Operations and the Mānoa Bookstore) within Auxiliary Enterprises would benefit, and in order to avoid laying off employees in Duplicating Services, it is proposed that the affected positions in Duplicating Services be reassigned to other areas of Auxiliary Enterprises.

COST OF REORGANIZATION

Following is a summary of the impact of this proposed reorganization:

Additional positions, functions, and programs: None

Variances: None

Reclassification or redescription impact: See Attachment 3

Additional office space required: There will be no need for additional office space.

Additional cost of reorganization: No additional costs are anticipated to accomplish this reorganization. No additional allotment of funds is being requested to accomplish this reorganization.

Brief Summary (no more than 2 pages)
Please include a brief narrative with an overview of the rationale for placement of the components on the Prioritization Summary form and any supportive or explanatory text or data that will assist higher levels of review in determining the relative priority of each program. You may wish to comment on the program self-reviews.

Campus Security is an integral part of ensuring the health and safety of UH Manoa students, staff, faculty, and visitors. They operate 24 hours a day, seven days a week. The Chief of Security has determined that a minimum of six officers must be on duty per shift: one supervisor, one dispatcher, and one officer for each of four designated patrol areas. Campus Security’s current staffing level makes it a challenge to meet this minimum on a consistent basis when officers call in sick or use vacation leave. Adequate staffing in Campus Security is essential to avoid excessive overtime and to assure adequate coverage. Investing in technological resources like CCTV will aid in the more efficient operation of Campus Security. In addition, with proper resources, Campus Security could implement safety awareness classes for the campus community; and could provide continuous training and development for its officers to keep them up to date on current laws, policies, procedures, tactics, and other skills necessary to remain proficient in their duties.

Recent events at university and college campuses like Virginia Tech, Northern Illinois University and Seton Hall have clearly demonstrated the need for investing in the safety and security of our campus community. In addition, there are requirements from the federal, state, and University of Hawaii Executive Policies that outline the responsibilities of universities and the steps that must be taken to ensure appropriate safety measures are in place to address emergency situations. Our Office of Emergency Management is staffed by one person and basically no budget. This department should be targeted for “growth and investment” to ensure that adequate resources are in place to continue the education and training of University staff in this critical area, and to strengthen our preparedness capabilities.
Parking continues to be in high demand at UH Manoa. While most faculty and staff’s parking demands can be accommodated, their choice of zones is not always available. There are consistently more students requesting parking than available permits for sale. Building additional parking structures is in the long range development plan for the University and should continue to be explored.

Faculty housing also continues to be in high demand. At any given time, the waiting list has 150 – 250 people on it. Faculty housing has also been named a priority by University administration. It is an important tool in the recruitment and retention of high priority faculty. A survey done in UH Manoa’s Development of Faculty Housing Study Work Paper #3, Task 3 – Housing Demand Estimate (page 24) indicated that 43% of respondents expressed moderate to high interest in participating in the faculty housing program, even if they were not currently residing in a faculty housing unit. The demand is very much related to the affordability and prime location of faculty housing. Considering all these factors, the development or acquisition of additional faculty housing units should continue to be explored.

As a self-sustaining operation, Food Services operates efficiently and is operating at a comfortable capacity, therefore should be in maintenance mode.

The UH Bookstore System is self-supporting and is an integral part of the University Bond system. It historically makes a profit. While the Bookstore needs to be able to adjust to the ever-changing retail, business, and educational environment, its current resources appear adequate.

Duplicating Services is in the process of forming a business plan to become a self-sufficient retail operation with the objective of reducing or eliminating its need for general funding. This would require that Duplicating Services charge all programs for all services, including the satellite copier program (currently, general funded programs are not charged). Duplicating Services will also encourage programs to become more paperless by utilizing scanning services and network capabilities with satellite copiers. Ideally, the procurement process for the purchase of copy equipment would be centralized through Duplicating Services. A possible location for the retail outlet is in the Bookstore, which will also help drive traffic to the Bookstore. A mutually symbiotic relationship is highly likely.

Since Campus Mail Services cannot charge higher prices than the actual cost of postage, labor costs will always be a factor toward the inability of Campus Mail Services to become entirely self-sufficient. Eliminating services such as metered postage and campus mail delivery; and charging all programs for postage (currently, general funded programs do not pay for postage), would reduce expenditures, thereby decreasing to some extent Campus Mail Services’ reliance on general funding.

Transportation Services will likely replace some gas-powered vehicle purchases with purchases of electric cars and carts. In addition to being initially less expensive, this option is also friendlier to the environment. The option of using electric cars or carts will also help other programs save annually with lower gas and rental costs, since renting carts is much cheaper than leasing a gas vehicle. Transportation Services will also be implementing a short-term rental car option that would be available to faculty and students. All of these steps take us closer to the ultimate goal of elimination of the sedan rental fleet.
Definitions/Examples:

New or In Transition (Need to re-evaluate later)
- The program was established within the past three (3) years and is seen to be needed.
- Establishment of the program was based on demonstrated need and it appears to be meeting the need.

Target for Growth and Investment
- Need for the program is increasing due to regulatory issues, growth of unit(s) being supported, or for other articulated reasons.
- The program has received state/regional/national recognition for services.
- The program is an integral part of the University mission.

Maintain As Is
- Demand for the program/unit has been relatively constant; program able to meet objectives.
- The program is an integral part of the University mission.
- Similar services are otherwise unavailable, or inferior.

Reorganize, Restructure, Merge, or Consolidate
- The program offers services that are not necessary to the University, or that duplicate those of one or more other units.
- Program could be more efficiently delivered in concert with other programs or by reorganizing delivery in new ways.

Reduce in Size or Scope
- Program could meet most needs even if reduced in size or scope.
- Program is not fully subscribed.

Phase Out, Close, or Eliminate
- Demand for program is low or declining at a rapid pace.
- Services are not essential to the central mission of the University.
- Activity or services provided by the unit are inconsistent with the future direction of the University.
