MEMORANDUM

TO: John C. Holzman
Chair, Board of Regents

FROM: David Lassner
Interim President

SUBJECT: Implementation of Changes to System Office Organization, Functions and Reporting Relationships Based on the Board of Regents' Advisory Task Group on Operational and Financial (ATG) Controls Improvement Recommendations Relating to the Organization, Functions and Reporting Relationship of System Offices

SPECIFIC ACTION REQUESTED:

It is requested that the Board of Regents approve the proposed reorganization for the system offices which implements the organization, functions and reporting relationships of offices as described in the attached proposal which is based on recommendations of the ATG.

RECOMMENDED EFFECTIVE DATE:

Upon Board of Regents Approval

ADDITIONAL COST:

Funds budgeted for the current position of Vice President for Student Affairs and University/Community Relations will be reallocated to support the appointments to the positions of the Vice President for Administration and the Associate Vice President for Administration, Procurement and Real Property Management. Should additional funds be required, such funding requests will be addressed through the reallocation of existing budgeted funds.

PURPOSE:

To comply with Board of Regents Policy Chapter 3, Section 3-2, Reorganizations, requires Board approval for significant change in responsibilities of programs that report directly to the President.
BACKGROUND:

Board of Regents policy Chapter 3, Section 3-2, Reorganizations, requires Board approval of significant changes in responsibilities of programs that report directly to the President.

Proposed Changes to System Offices’ Functions and Reporting Relationships. Based on its study, the ATG made recommendations regarding system office structure, functions, and reporting relationships in its August 14, 2013 report, “University of Hawaii – Advisory Task Group - Operational Assessment Report on System Level Administration Operating Policies and Practices” (copy attached). • **Policies, Procedures and Security/Emergency Management:** Assign responsibility for the management and coordination of system policies, procedures and security/emergency management to the AVPAPRPM

*Consultations.* In accordance with provision of Chapter 89-9c, Collective Bargaining in Public Employment, the exclusive representatives the Hawai‘i Government Employees Association (HGEA), the University of Hawai‘i Professional Assembly (UHPA) and the United Public Worker (UPW) unions were consulted regarding the proposed changes in system office functions, reporting relationships, and impact on bargaining unit members. The HGEA responded and expressed support for the proposed changes in system offices functions and reporting relationships. A meeting to discuss the proposal was held with UHPA, which expressed some concerns associated with the implementation of the proposed changes; and it was agreed that an on-going dialogue between the University and UHPA would be continued to facilitate the successful implementation of the proposed changes. The UPW did not express concerns.

Additionally, the statewide Student Caucus and All Campus Council of Faculty Senate Chairs (ACCSC) were provided copies of the proposed changes and offered the opportunity to provide comments coincident with the initiation of consultation with the unions. As of the date of this
memorandum, the Student Caucus acknowledged receipt of the proposal and indicated that they may submit comments; and no comments were received from the ACCFSC.

Copies of the proposed reorganization were provided Vice Presidents and Chancellors for review and comment, no comments were received. Informational meetings were held with staff members of each of the offices being reassigned respectively to the Offices of the Vice President of Administration and Executive Vice President for Academic Affairs. Staff expressed no concerns, except for the commonly asked question relating to the implementation timeline of the proposed reorganization, staff was apprised that the reorganization proposal was targeted for submission to the Board of Regents at its January meeting.

Transition. Upon the Board’s approval authorizing the establishment of the office of the VPA, it is envisioned that the university would begin recruitment to fill the position of VPA. However, for transition purposes during the recruitment period and vacancy of the VPA position, units to be reassigned to report to the VPA shall continue to maintain current reporting relationships with respective designated executives as reflected in the organization charts in effect on December 31, 2013. This temporary continuation of current reporting relationships is for temporary operational continuity purposes pending appointment of the VPA.

**ACTION RECOMMENDED:**

It is recommended that the Board of Regents approve the proposed reorganization for the system offices which implements the organization, functions and reporting relationships as described in the attached proposal which is based on recommendations of the ATG.

Changes to the Organization, Functions and Reporting Relationships of System Offices
Arising from the Implementation Board of Regents’
Advisory Task Group on Operational and Financial (ATG) Controls Improvement,
Report on System Level Administration Operating
Policies and Practices Recommendations

In accordance with Administrative Procedure A3.101, University of Hawai‘i
Organizational and Functional Changes, the following information is provided to
implement recommendations relating to the organization and functions of system offices
made by the Board of Regents Advisory Task Group (ATG).

I. Description of the conditions or factors prompting the proposed
reorganization, e.g., new program requirements, changes in the
environment, new legal or policy considerations.

Background. “On September 5, 2012, the University of Hawaii System
(“University”) Board of Regents (“BOR” or “Board”) approved the formation of an
Advisory Task Group on Operational and Financial Controls Improvement
(“ATG”) to assist the BOR with its oversight of the University’s actions and
improvements to policies, internal controls, and practices. The purpose and
primary function of the ATG is to oversee, provide input, monitor activities, and
guide the scope of an evaluation and improvement initiative specific to
operational and financial processes and related internal controls of the
University. The ATG reports to the BOR’s Committee on Independent Audit,
formerly known as the Committee on University Audits (“Committee”).”

The ATG is comprised of eight members, four members from the BOR, and four
from private industry with expertise in financial processes and organizational
structure and internal controls.

The members of the ATG are:
• James H.Q. Lee, Vice Chair, Board of Regents
• Barry Mizuno, Regent
• Randy Moore, Regent
• Saedene Ota, Regent
• Terri Fuji, Retired Managing Partner, Ernst & Young LLP, Hawaii
• Cory Kubota, Assurance Principal, Accuity LLP
• Patrick Oki, Managing Partner, PKF Pacific Hawaii LLP
• Lawrence D. (Larry) Rodriguez, Business Consultant, ATG Chair”

The Final report of the ATG’s Operational Assessment of the University’s System
Level operations. The ATG recommended proposed changes in system office
organization, functions, and reporting relationships to improve University administrative operations as follows:

Associate Vice Presidents for Student Affairs and External Affairs and University Relations. "Reporting lines could be further improved by having the Associate Vice President for Student Affairs be included within the office of the Executive Vice President for Academic Affairs/Provost to streamline reporting and reflect the relationship between student affairs and academics. Also, we propose transferring the External Affairs and University Relations functions to the Vice President for Administration as part of a recommended consolidation of administrative functions under one administrator."

Vice President for Administration: Procurement, Human Resources, Capital Improvements and External Communications. "Procurement, human resources, capital improvements and external communications are functions not unique to higher education. Additionally, there may be other administrative functions throughout the System that may be better suited for placement within an office whose responsibility is solely administrative operational matters. The ATG believes that the University would be better served if these administrative functions were placed under one administrator at the System Level, instead of being placed under other financial, technical or academic functions. We understand that the University had a Vice President of Administration position in the past and believe that, or a similarly named position, should be established to oversee procurement, capital improvements, human resources, and external communications activities. The responsibilities for policies and procedures, compliance and risk management should also be placed under this administrative position".

Responsibility for Policies, Procedures and Delegations of Authority Policies and Procedures. "The development and maintenance of the University’s policies and procedures are integral to effective operations of the entire University and the responsibility for policy development and maintenance needs to be clearly established and placed at the System Level. The responsibility should rest with a senior administrative executive with sufficient authority to ensure that all Executive Policies are appropriate and current, and aligned with Board Policies and that Administrative Procedures also meet the same criteria. This position should be at the Executive Vice President or Vice President level, depending on the placement of System Level organizational responsibilities. The responsibility could fall under the System Level position responsible for system-wide administrative matters that the ATG is recommending are established."

Delegations of Authority. "The ATG believes there should be an inventory of active delegations. The responsibility for maintaining this inventory may rest with the same position that would be responsible for the maintenance of Executive Policies, which we have stated should be at an Executive Vice President or Vice President level within Administration. Copies of all delegations should be provided to that office or position as a matter of practice."
Community College Chancellors. "Having Chancellors reporting directly to two separate positions should be avoided to prevent confusion as to lines of responsibility and accountability. The position descriptions and organization chart should be revised and updated to ensure that the Chancellors report to the appropriate position, in this case, the Vice President for Community Colleges."

Office of the Vice President for Legal Affairs and University General Counsel. "Currently, the position of Vice President for Legal Affairs and University General Counsel reports directly to the BOR. The ATG, in prior reports has articulated that leading practice is to have this position report directly to the President while still being available to provide advice and support to the BOR as necessary."

At the October 17, 2013 Board of Regents meeting, the Board approved changing the reporting relationships between the Board of Regent, President and Vice President for Legal Affairs and University General Counsel. A solid line is reflected on the revised organization chart between the President and Vice President for Legal Affairs and University General Counsel and a dotted line between the Board of Regents and Vice President for Legal Affairs and University General Counsel.

Further, the functional statement of the office is being revised to reflect the recommendation of the ATG that the Vice President be involved with system level strategic efforts, as well as, being responsibility for providing legal advice and support to the President and others.

Risk Management. "The ATG believes a System-wide risk management process needs to be designed and implemented. We view this effort as critical to the University and, as such, it needs to be coordinated at the System Level. This will require leadership and commitment from the BOR and management. The effort will also need a commitment of resources with the experience and knowledge necessary to successfully bring it to completion."

II. Explanation of how the proposed reorganization will address these conditions or factors.

Office of the Associate Vice President for Student Affairs. The function and associated staff of the Office of the Associated Vice President for Student Affairs are being reassigned from the Office of the Vice President for Student Affairs and University/Community Relations to the Office of the Executive Vice President for Academic Affairs/Provost (EVPAA/P), which is being re-titled to Executive Vice President for Academic Affairs (EVPAA). With the reassignment of the Associate Vice President for Student Affairs, the student affairs activities, which are closely related to academic affairs, will be consolidated under the same Vice President promoting a more streamlined and integrated functional relationship between student affairs and academics. In conjunction with the reassignment of the Offices and functions of the Office of Student Affairs and the Office of External Affairs and University/Community Relations,
the Office of the Vice President for Student Affairs and University/Community Relations is to be abolished.

Office of the Associate Vice President for External Affairs and University Relations. The function and associated staff of the Office of the Associate Vice President for External Affairs and University Relations are being reassigned from the Office of the Vice President for Student Affairs and University/Community Relations to the proposed Office of the Vice President for Administration as part of a recommended consolidation of administrative functions under one system level executive. In conjunction with the reassignment of the Office of Student Affairs and the Office of External Affairs and University Relations, the Office of the Vice President for Student Affairs and University/Community Relations is to be abolished.

Office of the Vice President for Administration. As recommended by ATG, to improve the University's operations certain administrative functions, which are currently distributed throughout the system level offices, are being aggregated under the Vice President for Administration. The functions to be aggregated are: procurement, human resources, capital improvements, risk management and external and university relations.

To implement the ATG recommendation that a specific system level office be assigned responsibility for the management and administration of system level policies and procedures and maintenance of an inventory of delegations of authority, it is being proposed that these responsibilities be assigned to the proposed position of Associate Vice President for Administration, Procurement and Real Property Management (AVPAPRPM) that will report to the VPA. Additionally, the AVPAPRPM will also be responsible for the systemwide coordinating the planning for and management for the system and systemwide security and emergency management preparations, operations and recovery programs.

Community College Chancellors. A direct reporting relationship represented by a solid line has been established between community college chancellors and the Vice President for Community Colleges. Associated position descriptions will be updated to reflect this new reporting relationship.

Vice President for Legal Affairs and University General Counsel. A direct reporting line has been established between the Office of the President and Office of the Vice President for Legal Affairs and University General Counsel. The function of the Office of the Vice President for Legal Affairs and University General Counsel is being revised to reflect the ATG recommendation that the office’s functions include being responsible for collaborating in System Level strategic efforts as well as the responsibility of this position as General Counsel to provide legal advice and support to the President and others.

III. Description of how the organization’s operational, organizational, functional and programmatic relationships will be affected, including
impact on services to students, other target groups and relationships with other segments of the university.

While some system level functions, e.g., student affairs and university/community relations are being reassigned respectively to the Office of the EVPAA and Office of the VPA, existing functions and services will continue. In fact the proposed reorganization will enhance the collaboration and coordination between the closely related fields of academic and student affairs and the aggregation of administrative functions under a single vice president.

To ensure continuity of operations during the transition process to implement the proposed reorganization, interim operating guidelines will be provided to maintain operations until new or revised policies, procedures and practices are promulgated, vetted and adopted. Furthermore, there should be no change in operations, functions and programmatic relationships and therefore no impact on services to students, other target groups and relationships with other segments of the university.

Once the proposed reorganization is approved, position descriptions will be appropriately revised. Additionally, as noted by the ATG, the impact of the implementation of the organizational and functional changes will be evaluated with respect to the resources required. As appropriate, a plan for additional positions and funding resources may be developed with such resources to be provided from existing resource capabilities, to the extent possible, or by legislative supplementation, as may be necessary.

IV. Discussion of the efficiencies, service improvements or other benefits that will be achieved as a result of the organization.

Associate Vice Presidents for Student Affairs. Because the functions of academic is closely related to student services, the reassignment of the Associate Vice President for Student Affairs to report to the Vice President responsible for academic affairs will facilitate collaboration between related functions and enhance the opportunities to ensure the coordination and integration of student and academic affairs initiatives, e.g., articulation.

External Affairs and University Relations. Reassignment of the Associate Vice President for External Affairs and University/Community Relations under the Vice President for Administration will result in administrative functions under a single Vice President whose focus will be on administrative functions and service support.

Vice President for Administration will be the singular position and office for directing and managing systemwide administrative functions of procurement, human resources, capital improvements, risk management, and external affairs and University relations. As noted by the ATG, administrative functions throughout the system may be better suited for placement within an office whose
responsibility is solely administrative operational matters rather than placing these functions under other financial, technical or academic functions.

Additionally, assignment of specific responsibility for the oversight of policies, procedures, and delegations to the AVPAPRPM will make explicit the office and position responsible for organizing and maintaining the currency of policies, procedures and delegation, as many are currently outdated and sorely in need of revision, updates and possibly abolishment.

Community College Chancellors. It is anticipated that proposed changes in reporting relationships and functions will clarify and enhance operations and administration. For example the dual reporting lines (to the President and Vice President for Community Colleges) will be exchanged for a direct reporting line (solid line) to the Vice President for Community Colleges and with continuation of the Council of Chancellors; all chancellors will have access to the President for systemwide coordination and communications.

Office of the Vice President for Legal Affairs and University General Counsel. With the establishment of a solid line on the revised organization chart between the President and Vice President for Legal Affairs and University General Counsel and highlighting of the function of the Office to become more responsible for collaborating in system level strategic efforts and providing services to other units, it is anticipated that enhanced operating relationships and service support will be realized by the closer direct working relationship between the President and Vice President and the associated involvement of the Office in designing and supporting improvement in provision of legal services. Because of the dotted line between the Board of Regents and Vice President for Legal Affairs and University General Counsel, the Board will continue to have access to legal services as may be required.

Additionally, with the reassignment of the Office of Risk Management from the Office of the Vice President for Legal Affairs and University General Counsel to the Office of the VPA, the systemwide risk management program may be continued while facilitating the development of new initiatives in response to systemwide administrative functions and needs.

V. Complete description of the resource requirements or savings associated with the reorganization, including funding, positions, space, equipment and other resources.

No additional resources, e.g., funding, positions, space, equipment or other resources, are being anticipated as being needed to implement the proposed organizational and functional changes. Some existing positions are being redescribed, e.g., position no. 89103, Vice President for Student Affairs and University/Community Relations to be redescribed as the Associate Vice President for Administration and Procurement and Property. Affected offices and their associated staff will remain in place and continue to use existing equipment,
space and facilities. Existing reserve positions will be used: reserve position no. 89446 will be used for the proposed VPA; reserve position no. 900114 to be used for the proposed Private Secretary to the VPA; and position no. 89103, Vice President for Student Affairs and University/Community Relations will be re-described as the AVPAPRPM; position no. 100003 will be redescribed as the proposed Secretary to the proposed AVPAPRPM. Existing funds associated with the position of Vice President for Student Affairs and University/Community Relations will be reallocated to support, as needed, the positions of Vice President for Administration and Associate Vice President for Administration, Procurement and Real Property Management, upon appointments to the positions, with any additional funding needed to support activation of reserve or redescribed positions to be provided through the reallocation of existing budgeted funds.

For purposes of this reorganization proposal, all positions and associated personnel with system units being reassigned, e.g., Office of Human Resources, Office of Capital Improvement, Office of Procurement and Real Property Management, Office of External Affairs and University Relations, and Office of Risk Management are being transferred in Toto with no change in the position incumbent's base compensation, benefits, seniority, employment status, or bargaining unit designations. In the course of updating position descriptions to reflect organizational changes, should a position's classifications be affected, current policies and procedures relating to the compensation adjustments shall apply.

VI. Explanation of the source of resources needed to implement the reorganization, e.g., reallocation from within the program or major unit, or new revenue.

The proposed reorganization involves the creation of a new Office of the VPA through the realignment of existing offices and does not require new revenues. Similarly, the reassignment of the existing Office of the Student Affairs to the Office of the EVPAAA does not require new revenues. The shifting of the reporting lines and updates to reflect additional position responsibilities for system offices may cause a change in workload and assignments. Therefore, as recommended by the ATG an assessment will be made to determine the nature and extent of additional resources that may be needed to more fully and effectively support implementation efforts following the approval of the reorganization. As appropriate, revisions to position description will be initiated to reflect the reorganization changes, e.g., changes in reporting relationships.

VII. Discussion of the programmatic impacts of the proposed reorganization on the University.
