# CONTINUING EDUCATION AND COMMUNITY SERVICE ENROLLMENT UNIVERSITY OF HAWAI'I, SPRING 2002

---

This report presents information on enrollment in continuing education courses offered by the University of Hawai'i. Reporting units include Outreach College of Continuing Education and Summer Sessions at UH Mānoa, Continuing Education and Community Service at UH Hilo, the Offices of Continuing Education and Training at the UH Community Colleges, and the Employment Training Center. Information is presented for each campus, with breakdown by credit and non-credit course activity. Historical data are shown for the eleven-year period from Spring 1992 to Spring 2002 for all campuses. Full-Time Equivalent (FTE) enrollment calculations are provided for campuses having credit activity.

## REPORTING METHODOLOGY

Enrollment reporting for continuing education differs markedly from that for regular credit programs. First, while the data reported include some credit activity, the vast majority of the courses offered are non-credit. Second, courses vary in duration, from as short as a single session to as long as several months. Third, courses are offered on an on-going basis, with students enrolling throughout the reporting period. The academic semesters (Fall, Spring and Summer) used for reporting regular credit programs do not correspond well to the actual periods of study for continuing education courses. Rather, the reporting periods used for continuing education have been established to facilitate timeliness of reporting. Fourth, the data are collected every semester from the individual campuses using simple course listings. There are no comprehensive student registration systems for non-credit courses as there are for regular credit courses. Consequently, the depth and variety of demographic and course data available for regular credit programs do not exist on the non-credit side. Furthermore, responsibility for the accuracy of the information, as well as for making determinations as to what to report, rest largely with the individual campuses. Fifth, for non-credit courses there are generally no strict admission criteria – anyone with an interest may enroll. Sixth, hours earned in a non-credit course or sequence of courses generally do not lead to a college degree. Finally, students who enroll in more than one course at a particular campus within the same reporting period are counted for each course entered. **Therefore, the non-credit numbers reported here are registration counts, not unduplicated headcounts.**

## NOTES ABOUT THE DATA

In addition to these differences, certain other characteristics of the data merit comment. The most important of these characteristics are highlighted, as follows:

- In compiling historical data for Table 3, recounts and other adjustments have been made periodically where prior omissions or miscalculations have been found or to reflect changes in reporting practices. The numbers shown in this table may therefore differ from counts published previously.

- Unduplicated headcounts have been provided for continuing education credit programs at UH Mānoa since Spring 1993, Honolulu Community College since Spring 1995 and UH Hilo since Spring 1998. Prior to those dates registration (duplicated) counts were reported. Although unduplicated headcounts will be lower than registration counts, they are preferred and are listed in the tables whenever available. *Registration counts for credit courses for the current semester are listed in the footnotes to the tables by UH unit.*
- Reporting of student credit hour data makes calculation of full-time equivalent (FTE) enrollment possible for those campuses reporting credit data (Table 2). Prior to Spring 1995, student credit hour data were available for UH Mānoa only. Breakout by undergraduate / graduate has been available at UH Manoa since Spring 1993 and at Hilo since Spring 1999.
- Beginning in Spring 1999, regular credit reporting at UH Mānoa, UH Hilo and Honolulu CC was modified to include continuing education credit students. The counts subsequently reported in the regular credit student enrollment reports are unduplicated headcounts *as of the census date*. The credit counts reported in this report are *end-of-semester* unduplicated headcounts, and may include additional students who enrolled in continuing education credit courses after the census date.
- In Spring 1996, Community Service program registration counts were added to the continuing education counts for UH Mānoa. The inclusion of these counts resulted in a large increase in the total non-credit registration count at UH Mānoa. Although Community Service programs have been in operation for a number of years, data for prior spring semesters are not available.
- UH Mānoa Public Events include a wide variety of program activities, from lectures and classes to films and concerts. While counts reported for lectures and classes are included in the tables, the counts for films and concerts, as well as performance events, are generally excluded (see footnotes to Table 4). This same criteria may be applied to the data reported for other campuses, as appropriate.
- Credit data included in the tallies submitted by UH Hilo were not consistently identified prior to Spring 1994. Non-credit tallies for these semesters may include unidentified credit data.
- Credit courses at Honolulu CC are offered in four periods per year. The count shown for Spring is for SOCAD Period I.
- In Spring 2001, historical data for Kapi'olani CC were adjusted to correct for systematic reporting irregularities. The numbers shown in Table 3 have been revised and may differ from reports issued previously.

## SUMMARY AND HIGHLIGHTS

Enrollment in continuing education programs for the University of Hawai'i system measured 44,408 for Spring 2002 (Table 1). Registrations in non-credit courses totaled 42,305, while headcount enrollment in credit programs totaled 2,103 (credit registrations totaled 3,903). Non-credit program enrollment accounted for 95.3% of total continuing education enrollment, while credit programs accounted for 4.7%.

UH Mānoa had the largest continuing education enrollment of any single campus at 21,081 (Table 1). Credit enrollment measured 1,665 (7.9% of the total), while non-credit enrollment measured 19,416 (92.1%). Continuing education at UH Mānoa includes credit courses administered by Outreach College, as well as non-credit courses, community service programs and public events (Table 4). The credit counts are unduplicated headcounts, measured at end-of-semester. Breakdown by undergraduate / graduate and by classified / unclassified is provided for credit enrollment. For the first time in this report, non-credit courses and workshops are broken out by type.

At UH Hilo, courses are broken down by credit and non-credit (Table 5). The credit headcount measured 143 students enrolled in Education, English and Hawaiian Language courses (the registration count was 257). Non-Credit enrollment measured 1,518, with courses offered in three broad program areas: Continuing Education, Seniors and the Conference Center. Conferences accounted for 414 registrations (27.3% of the total), while Continuing Education had 350 registrations (23.1%) and Seniors had 754 (49.7%).

Continuing education enrollment at the UH Community Colleges measured 21,666, with non-credit enrollment accounting for 98.6% of the total (Table 1). On the non-credit side, courses involving computer training were the most popular, accounting for 18.6% of the total continuing education enrollment (Table 6 and Figure 5). Credit enrollment at Honolulu CC totaled 295 for Spring 2002 (SOCAD Period I); the registration count was 562.

Since Spring 1992, continuing education enrollment has measured between 36,900 and 57,400 (Table 3 and Figure 1). Credit enrollment appears to have declined substantially since Spring 1992, but at least some of this apparent decline is due to more exacting reporting standards, specifically the replacement of registration counts with unduplicated headcounts. Non-credit enrollment is subject to wide fluctuations in enrollment, depending upon the types of programs offered. Community Service counts at UH Mānoa have varied greatly since they were introduced in Spring 1996.

The reader is advised to exercise caution in drawing conclusions based upon the historical series. Differences in the quality of the data as well as changes in the reporting procedures allow for only a general comparison over time. The reader is also advised to compare the Spring continuing education numbers together with those reported for the Summer and Fall semesters, and to consider the Academic Year as a whole. Attempts to improve the reporting methods and quality of the data are ongoing.

1/ Credit counts are unduplicated headcounts in continuing education credit programs, by campus.

The credit course registration count for the UH system totalled 3,903 for Spring 2002.

2/ Non-Credit counts are registration (i.e. duplicated) counts in non-credit programs.

1/ UH Manoa historical series audited and corrected in Spring 2000. Numbers therefore may differ from those reported previously.

2/ Unduplicated count, beginning Spring 1993. Outreach College end-of-semester Winter & Spring term combined unduplicated headcount, beginning Spring 1999.

3/ College of Continuing Education and Community Service merged with Summer Sessions to form Outreach College, effective Spring 1999.

4/ Community Service counts have included the Lyceum program, the Statewide Cultural Exchange program, and the Collaborations in the Arts program.

No data reported for Outreach College Community Services for Spring 2001.

5/ Public events include lectures and demonstrations; performance events, such as concerts, art shows and films, are excluded.

6/ Unduplicated headcount, beginning Spring 1998. End-of-semester unduplicated headcount, beginning Spring 1999.

7/ UH Community College subtotal includes the Employment Training Center.

8/ Unduplicated headcount, beginning Spring 1995 (SOCAD Period I).

9/ Non-credit counts for Kapi'olani CC for all years revised in Spring 2001.

10/ Count for Maui CC for Spring 2001 corrected for duplication.

1/ The credit count is an unduplicated headcount of Outreach College enrollment for the combined Winter and Spring 2002 terms measured at end-of-semester. The simple combined headcount for both terms was 1,822. The total registration count for both terms was 3,084.

2/ The non-credit counts are registration counts, and may include multiple counting of individuals.

3/ Total for excluded items (includes films and performance events) totaled 2,071 for Spring 2002.

1/ Program categories provided by campuses in most instances. Where no categories were provided, data were assigned to categories on an educated basis.

2/ The credit count for Honolulu Community College is an unduplicated headcount for SOCAD Period I courses, measured at end-of-semester. The registration count was 562.

3/ Non-Credit counts are registration (i.e. duplicated) counts.
