**UNIVERSITY OF HAWAI‘I  
PEER AND BENCHMARK COMPARISON GROUPS**

The terms “benchmark” and “peer” are used here to differentiate between the comparative groups developed internally at UH and those developed more systematically by the National Center for Higher Education Management Systems (NCHEMS) or by using the peer analysis tool of the national Integrated Postsecondary Education Data System (IPEDS). In particular, the benchmark groups reflect input from campus executives. The UH Manoa list was developed many years ago and its enduring use reflects the desire of UH officials to understand where Manoa stands relative to some well-known mainland institutions. The lists of benchmarks for UH Hilo and the UH Community Colleges were developed with input from the Chancellors’ offices and have evolved and changed over the years.

The institutions included in the peer groups were developed by NCHEMS Information Services or jointly by the UH system and campus analysts. NCHEMS and UH analysts use an indicator data base containing variables covering institutional characteristics, faculty, finance, degrees awarded, enrollments, and other data. There is also professional judgment involved in this selection process.

These are peer and benchmark comparison groups for the University of Hawai‘i campuses as follows. The groups listed in this report do not include peer or benchmark groups developed internally at the campus, college, or departmental levels.
