## THE UNIVERSITY OF HAWAI'I COMMUNITY COLLEGES HEADCOUNT ENROLLMENT, FALL 2004

Headcount enrollment at the University of Hawai'i Community Colleges measured 25,898 for Fall 2004, a decrease of 1.7% from the previous fall semester (Table 1 and Figures 1 & 2). Full-Time Equivalent (FTE) enrollment declined 1.9%, to 15,039 (Table 2).

In Fall 2002, the UH Community Colleges migrated to a new student registration system. A consequence of this change was a significant increase in invalid data for certain fields, including: citizenship, major, education level, education objective, and permanent home address. In Fall 2003, additional changes were made which further increased the invalid total. The reader is advised to exercise caution when examining historical trends or using percentage data. Efforts to improve the data quality are on-going.

Summary data on student enrollment at non-primary campuses, as defined in the Banner registration system, are given in Appendix A. These are students whose primary campus is not the UHCC campus at which enrolled. Students who are already enrolled elsewhere in the UH system are not required to apply to UHCC campuses in order to attend classes. Consequently, the major fields of study for these students at their primary campuses may be incompatible with the valid major offerings at the secondary campus.

Other Fall 2004 enrollment highlights:

- In Fall 2004, 3,326 students, or 12.8% of the total UHCC system enrollment, were attending a non-primary campus (Appendix A). Of these students, 38.5% were home-based at a UH four-year campus, while 61.5% were home-based at another UHCC campus. These figures are somewhat higher than in Fall 2003, though there is as yet insufficient data to indicate a trend.
- Non-residents who pay full non-resident tuition (as opposed to those who pay resident tuition) have increased from 631 in Fall 1997 to 1,110 in Fall 2004 (Table 3, Appendix B & Figure 3). Total non-resident enrollment (including exempted) has increased from 7.5% of total enrollment to 9.2% over this period.
- Enrollment of students with local address from a neighbor island has increased steadily since Fall 1996 (Appendix B & Figure 4). In Fall 2004, neighbor island enrollment increased to 1,121, or 4.3% of total enrollment. This growth may reflect increased delivery of instruction via distance education.
- The enrollment gap between men and women continues to widen (Appendix B and Figure 7). 40% of students are enrolled full-time (Figure 8). The mean age of students declined very slightly in Fall 2004, to 25.8 years (Figure 9), the lowest mean age in over 10 years.
- With the new registration system, race/ethnic reporting has been expanded to include additional Asian and Pacific Islander categories (Table 3 & Appendix C). However, only incoming students are included in these new categories; continuing students are shown under the category previously selected. UHCC enrollment is ethnically diverse and continues to diversify (Figure 10).

1/ Third year Advanced Professional Certificate (Honolulu CC) approved by the UH Board of Regents in July 2003, effective Spring 2004.

2/ Migration to new student registration system in Fall 2002 resulted in a large increase in records with invalid data.

3/ See Appendix B for distribution of students by local address for Hawai'i CC, Kaua'i CC and Maui CC.

4/ Source reports do not specify island for local addresses on neighbor islands.

5/ Shows sum of students with student and other visas; excludes students with immigrant visas.

6/ With migration to new registration system, ethnic categories have been expanded. However, only new students are included in the new categories; students already enrolled are reported under the ethnic category previously selected.

- 1/ In March 1996, the Associate in Science degree was replaced by the AS-Transfer, a baccalaureate leading credential. Some campuses may have continued to use the old coding beyond that date. Migration to the new student registration system in Fall 2002 completed this changeover.
- 2/ Figures for Fall 2002 and Fall 2003 corrected.
- 3/ Figure for Fall 2002 corrected.
- 4/ Third year Advanced Professional Certificate (Honolulu CC) approved by the UH Board of Regents in July 2003, effective Spring 2004.
- 5/ Includes Specials (concurrents and early admits) for all years shown.
- 6/ Migration to new student registration system in Fall 2002 resulted in a large increase in records with invalid data.
- 7/ Students with zero SSH are students auditing courses for no credit, attending remedial non-credit courses or waiting for courses not currently offered. Zero SSH data no longer counted, effective Fall 2000, but persist due to data processing anomalies.
- 8/ Migration to a new student registration system in Fall 2002 resulted in a movement of counts from the Institutional category to the Pacific-Asian.
- 9/ Shows sum of students with student and other visas; excludes students with immigrant visas.
- 10/ Migration to a new student registration system in Fall 2002 resulted in a large increase in no data on previous college.
- 11/ With migration to new registration system, ethnic categories have been expanded. However, only incoming students are included in the new categories; students already enrolled are reported under the ethnic category previously selected.

- 1/ In March 1996, the Associate in Science degree was replaced by the AS-Transfer, a baccalaureate leading credential. Some campuses may have continued to use the old coding beyond that date. Migration to the new student registration system in Fall 2002 completed this changeover.
- 2/ Figure for Fall 2002 corrected.
- 3/ Includes Specials (concurrents and early admits) for all years shown.
- 4/ Migration to new student registration system in Fall 2002 resulted in a large increase in records with invalid data.
- 5/ Students with zero SSH are students auditing courses for no credit, attending remedial non-credit courses or waiting for courses not currently offered. Zero SSH data no longer counted, effective Fall 2000. (The 43 records shown for Fall 2002 were due to a data processing error; the 45 records shown for Fall 2003 were due to coding changes subsequent to the migration to the new registration system.)
- 6/ Migration to a new student registration system in Fall 2002 resulted in a movement of counts from the Institutional category to the Pacific-Asian.
- 7/ Shows sum of students with student and other visas; excludes students with immigrant visas.
- 8/ Migration to a new student registration system in Fall 2002 resulted in a large increase in no data on previous college.
- 9/ With migration to new registration system, ethnic categories have been expanded. However, only incoming students are included in the new categories; students already enrolled are reported under the ethnic category

- 1/ In March 1996, the Associate in Science degree was replaced by the AS-Transfer, a baccalaureate leading credential. Some campuses may have continued to use the old coding beyond that date. Migration to the new student registration system in Fall 2002 completed this changeover.
- 2/ Figures for Fall 2002 and Fall 2003 corrected.
- 3/ Figure for Fall 2002 corrected.
- 4/ Includes Specials (concurrents and early admits) for all years shown.
- 5/ Migration to new student registration system in Fall 2002 resulted in a large increase in records with invalid data.
- 6/ Shows sum of students with student and other visas; excludes students with immigrant visas.
- 7/ Migration to a new student registration system in Fall 2002 resulted in a large increase in no data on previous college.
- 8/ With migration to new registration system, ethnic categories have been expanded. However, only incoming students are included in the new categories; students already enrolled are reported under the ethnic category previously selected.

- 1/ In March 1996, the Associate in Science degree was replaced by the AS-Transfer, a baccalaureate leading credential. Some campuses may have continued to use the old coding beyond that date. Migration to the new student registration system in Fall 2002 completed this changeover.
- 2/ Includes Specials (concurrents and early admits) for all years shown.
- 3/ Migration to new student registration system in Fall 2002 resulted in a large increase in records with invalid data.
- 4/ Students with zero SSH are students auditing courses for no credit, attending remedial non-credit courses or waiting for courses not currently offered. Zero SSH no longer counted, effective Fall 2000. (The 3 records shown for Fall 2003 were due to coding changes subsequent to migration to a new registration system.)
- 5/ Migration to a new student registration system in Fall 2002 resulted in a movement of counts from the Institutional tuition to the Pacific-Asian.
- 6/ Shows sum of students with student and other visas; excludes students with immigrant visas.
- 7/ Migration to a new student registration system in Fall 2002 resulted in a large increase in no data on previous college.
- 8/ With migration to new registration system, ethnic categories have been expanded. However, only incoming students are included in the new categories; students already enrolled are reported under the ethnic category previously selected.
