THE UNIVERSITY OF HAWAI'I AT HILO HEADCOUNT ENROLLMENT, FALL 2005

Headcount enrollment at the University of Hawai'i at Hilo measured 3,422 for Fall 2005, a 4.1% increase over the previous fall semester and a new historical high enrollment (Table 1 and Figures 1 & 2). Full-Time Equivalent (FTE) enrollment increased 4.4% to reach 2,904, also a new historical high (Table 2). Since Fall 1997, headcount enrollment has increased 29.7%, while FTE enrollment has increased 33.6%.

In Fall 2003, the UH four-year campuses migrated to a new student registration system. In Fall 2005, the University of Hawai'i Institutional Research Office completed development of the IRO Base table. Breakouts for certain items in the report tables, such as citizenship and local address, have changed. The Hawaiian Ancestry measure is new. Data for certain other items may show discontinuities due to changes in data processing. The reader is advised to exercise caution when examining trends or percentage data over time.

With the migration to a new student registration system in Fall 2003, ethnic reporting has been expanded to include additional Asian and Pacific Islander categories (Tables 3, 4 & 7). However, only new students are included in these new categories; students already enrolled are shown under the ethnic category previously selected.

Other Fall 2005 enrollment highlights:

- Entering undergraduate student enrollment increased 13.2% in Fall 2005 to reach 1,396, a very high level historically (Table 4 & Figure 3). Most of this growth was due to a 140 student (21.6%) increase in transfer enrollment.
- The rapid growth in the Western Undergraduate Exchange program since inception in Fall 1997 has leveled off at just over 500 students (Figure 4).
- Students with neighbor island local addresses have been increasing in recent years, and measured 5.6% of total enrollment in Fall 2005 (Figure 5). This measure may reflect increased delivery of instruction via distance education.
- The Hawaiian Ancestry characteristic is a new item, beginning in Fall 2005. Students were asked on the application to indicate Hawaiian ancestry. The figures given in Table 3 and Table 4 show the aggregate number of students who indicated "Yes" to Hawaiian ancestry or who selected Hawaiian ethnicity. The combined total for the campus measured 16.4% of enrollment.
- In Fall 2005, 80.4% of the students at UH Hilo were enrolled full-time (Table 3 & Figure 7). Women comprised just under 60% of total enrollment (Figure 8). The Mean Age of students continued to decline, measuring 24.9 years, the lowest level in over ten years (Figure 9).
- The student body is ethnically diverse and continues to diversify (Figure 10). UH Hilo enrolls the highest percentage of Pacific Islanders (other than Hawaiian / Part-Hawaiian) of any campus in the UH system.

* This version of narrative excludes reference to the growth in non-resident enrollment, which was considered sensitive.
