## THE UNIVERSITY OF HAWAI'I AT MĀNOA HEADCOUNT ENROLLMENT BY MAJOR, FALL 2006

This report summarizes headcount enrollment by major at UH Mānoa from Fall 1996 to Fall 2006. Table 1 presents data for each school / college, with breakout by lower, upper and graduate divisions (lower division is the sum of freshmen and sophomores, while upper division is the sum of juniors and seniors). Table 2 shows headcounts by major, with detail by degree objective. Table 3 provides summary counts by degree objective.

With the migration to the Banner registration system in Fall 2003, there has been an increase in the number of student records for which valid majors are not available (no data on major). Many of these records are for students whose home campus (primary campus in Banner) is not UH Mānoa. Table 1 and Table 2 now include a breakout which lists the home campus for these students.

Changes to degree programs occur frequently. Details on changes to the programs are itemized in the footnotes to Table 2. Every attempt is made to keep these footnotes comprehensive and up-to-date. Sources for documenting changes include Minutes to the Meetings of the UH Board of Regents and memoranda on program changes issued by the schools / colleges and the UH Mānoa executive offices.

Enrollment highlights for Fall 2006 include the following:

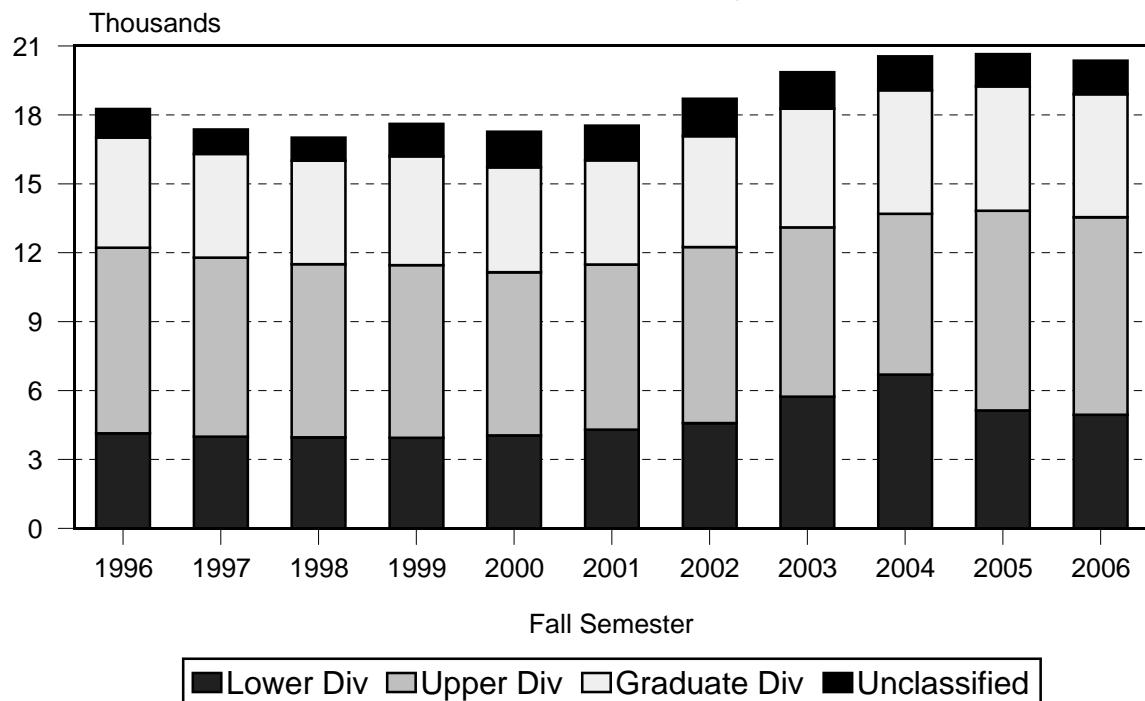

- Enrollment for the UH Mānoa campus decreased 1.4% in Fall 2006, a slight decrease from the previous fall semester (Table 1 & Figure 1).
- In Fall 2006, enrollment in Baccalaureate programs measured 13,542, accounting for 66.6% of total enrollment (Table 3 & Figure 2). This headcount represents a slight decrease over the previous fall semester after several years of strong growth. Since Fall 2001, enrollment in Baccalaureate programs has increased 17.9% (Figure 4).
- The Bachelor of Arts programs which have shown the largest numerical increases since Fall 2001 include: Art and History in Arts & Humanities; Economics, Political Science and Psychology in Social Sciences; General Arts & Sciences; the Pre-Professional programs in Business, Nursing and Kinesiology & Leisure Science, and Pharmacy (Table 2).
- The Bachelor of Science programs which have shown the largest numerical increases since Fall 2001 include: Biology and Marine Biology in Natural Sciences; Travel Industry Management; Health, Exercise & Lifestyle Management in the College of Education; Civil and Mechanical Engineering; Professional Nursing.
- Enrollment in Bachelor of Education programs (BEd) and Bachelor of Business (BBA) programs decreased slightly in Fall 2006 from the previous fall semester, to 440 and 789 respectively. Enrollment in all other Baccalaureate degree programs decreased to 107 students.

- Enrollment in Masters programs decreased slightly in Fall 2006, to a headcount of 3,051 or 15% of total enrollment (Table 3 & Figure 6). Enrollment in Doctoral programs increased for the sixth consecutive fall semester to reach 1,511, the highest level on record (Table 3 & Figure 6). Headcount enrollment in Doctoral programs grew 2.1% in Fall 2006 and accounted for 7.4% of total enrollment.
- First-Professional enrollment measured 641 in Fall 2006, a new historical high (Table 3 & Figure 7). Since Fall 2001, First-Professional enrollment has increased 28.2%. The addition of the ArchD program in Architecture in Fall 1999 has accounted for most of this recent growth. The JD and MD programs have increased their enrollment 26.5% and 2.0%, respectively, over this period.
- General Arts & Sciences enrolled 4,254 students in Fall 2006, by far the largest enrollment of any college / school (Table 1 & Figure 9). The College of Social Sciences was next, followed by Natural Sciences, Education, Arts & Humanities, Business Administration and Languages, Linguistics and Literature. Travel Industry Management has had the most robust growth since Fall 1996 and the School of Hawaiian, Asian & Pacific Studies (SHAPS) has had the most robust growth since Fall 2001 (Figure 10).
