THE UNIVERSITY OF HAWAII' HEADCOUNT ENROLLMENT, SPRING 2007

Headcount enrollment at the University of Hawai'i measured 46,401 in Spring 2007, remaining stable from the previous spring semester. Four campuses posted increases in enrollment: Kapi'olani CC (3.4%); Hawai'i CC (2.5%); UH-West O'ahu (1.7%); Leeward CC (0.1%). However, these increases were offset by the enrollment declines posted by the remaining campuses: Windward CC (-2.7%); Kaua'i CC (-2.4%); Maui CC (-1.8%); Honolulu CC (-1.2%); UH Mānoa (-0.7%); UH-Hilo (-0.3%). Overall, enrollment for the UH Community College system increased 0.5% from Spring 2006.

In 2002-03, the University of Hawai'i campuses migrated to a new student registration system. During that process, aggregations for certain items in the report tables such as citizenship have changed. Data for certain other items may show discontinuities due to changes in data processing. The reader is advised to exercise caution when examining trends or percentage data over time.

Other Spring 2007 enrollment highlights:

- The Banner registration system requires students to designate one of the UH campuses as their "home" campus. However, business practice has changed so that once a student has been accepted into any UH campus he/she may register for classes at any UH Community College without submitting a new application. A new line item has been added to the tables to track this enrollment separately from other measures. Total enrollment at non-home based campuses measured 3,588 (15.4%) for the UH Community Colleges in Spring 2007 and 3,681 (7.9%) for the UH system.
- The Hawaiian Ancestry characteristic is a new item. The Hawaiian Ancestry enrollment is a combination of all those who indicated "Yes" to Hawaiian Ancestry on the application plus those who either did not answer the question or indicated "No" but who indicated Hawaiian / Part-Hawaiian ethnicity. The total for the UH system measured 8,149 or 17.6% of the enrollment in Spring 2007.
- The mean age of students has tapered off to 25.7 years in Spring 2007. The proportions of full-time and part-time students have remained steady at about 53% and 47%, respectively. The enrollment of men increased slightly to 42.7%. The proportion of Hawai'i resident students has leveled out over the past two years, at 78%, after dropping from 82% five years ago.
- With the migration to the Banner registration system, ethnic reporting has been expanded to include additional categories. However, only incoming students are included in these new categories; students already enrolled are shown under the ethnic category previously selected. The UH student body is ethnically diverse and continues to diversify.

This excludes students who may have enrolled after the census date.

Notes:

1	Home-Based at Other UH Campus refers to students whose primary campus (as defined in Banner / ODS) is not the campus at which registered.
2	Military counts for Permanent Home Address for Spring 2007 are reported under No Data.
3	Revised Institutional Exempt residency code is effective Fall 2007 and assigned to students from the Pacific Islands who come from nations where there are no four-year institutions of higher education. Students are charged 150% of resident tuition. The use of this residency code in Spring 2007 (prior to the effective term) may be due to the miscoding of the student record.
4	Hawaii National Guard residency code is effective Spring 2007. Students pay residency tuition.
5	Effective Fall 2006, Citizenship Type replaces the Non-U.S. Citizens measure. The citizenship type field in IRO_Base is more reliable than the visa type field when identifying U.S. citizens and non-U.S. citizens.
6	Hawaiian Ancestry headcount refers to the sum of students who self-reported Hawaiian ancestry on the UH System Application form and those who either did not answer the ancestry question or answered in the negative but who indicated Hawaiian ethnicity.

Notes:

1	Home-Based at Other UH Campus refers to students whose primary campus (as defined in Banner / ODS) is not the campus at which registered.
2	Military counts for Permanent Home Address for Spring 2007 are reported under No Data.
3	Hawaii National Guard residency code is effective Spring 2007. Students pay residency tuition.
4	Effective Fall 2006, Citizenship Type replaces the Non-U.S. Citizens measure. The citizenship type field in IRO_Base is more reliable than the visa type field when identifying U.S. citizens and non-U.S. citizens.
5	Hawaiian Ancestry headcount refers to the sum of students who self-reported Hawaiian ancestry on the UH System Application form and those who either did not answer the ancestry question or answered in the negative but who indicated Hawaiian ethnicity.

- 2/ Military counts for Spring 2007 are reported under No Data.
- 3/ Includes U.S. Possessions, U.S. Commonwealths and republics within the Compact of Free Association.
- 4/ Increase in invalid data subsequent to migration to the Banner registration system: Summer 2002 at the UH Community Colleges, Summer 2003 at UH-West O'ahu and Fall 2003 at UH Mānoa and UH Hilo. For Spring 2007: no data includes Military counts.
- 5/ Effective Fall 2007: Revised Institutional Exempt code assigned to students from the Pacific Islands who come from nations where there are no four-year institutions of higher education. Students are charged 150% of resident tuition. The use of this residency code in Spring 2007 may be due to the miscoding of the student record.
- 6/ New residency code for Hawaii National Guard reservists, effective Spring 2007; students pay resident tuition.
- 7/ Shows sum of students with student and other visas; excludes resident aliens. Effective Fall 2006, non-resident alien is defined as the non-citizen count under citizenship type.
- 8/ Effective Fall 2006, Citizenship Type replaces the Non-U.S. Citizens measure. The citizenship type field in IRO_Base is more reliable than the visa type field when identifying U.S. citizens and non-U.S. citizens.
- 9/ Students with zero SSH are students auditing courses for no credit, attending remedial non-credit courses or waiting for courses not currently offered. Zero SSH records no longer counted as of Fall 2000; however, may persist due to data processing anomalies.
- 10/ New item added to the UH System Application form. Shows sum of all those who indicated Hawaiian ancestry plus those who either did not answer the question or who answered in the negative but who indicated Hawaiian ethnicity. New procedures were implemented to collect Hawaiian Ancestry information from continuing students but are not reflected in the Spring 2006 data because the collection took place after the Spring 2006 data were frozen in ODS. The updated Hawaiian Ancestry information will be reflected in the Fall 2006 enrollment report and thereafter.
- 11/ Breakout by previous college not available after Banner migration.
- 12/ Asian Indian was formerly called Indian Subcontinent; Pacific Islander includes Other Pacific Islander; Hispanic includes Other Hispanic; Caucasian includes Other Caucasian. Effective Fall 2006, Mixed Asian Pacific Islander was renamed Mixed Asian.
