### SPRING 2013

#### Description

Considered the largest geographical feature on earth, the Pacific Ocean displays an extraordinary human and cultural diversity. The Pacific has represented an object of European interest and fantasies since the European first age of discovery of the Oceanic region. In the popular imagination, the islands of the South Pacific conjure exotic images both serene and savage. "Islands of love." Mysterious rituals. Cannibals stories. "Disappearing" cultures." Threatened or "collapsed" ecologies. These fantasies continue to reflect Western desires and discourses but have very little to do with how most Pacific Islanders live their lives today.

Our focus is to analyze and discuss the contemporary reality, the entanglement of "tradition" and "modernity" in the Pacific. The experience of Pacific communities, past and present, has much to teach us about living in communities that contend with global flows of people, culture, and capital. This course also fulfills the Hawaiian ("H") Focus requirement, for its content reflects the intersection of Pacific Island cultures with Native Hawaiian culture.

*In almost all respects—religious, political, and cultural—Pacific islanders' identities have been evolving and taking new forms as they become increasingly caught up in globalizing forces. Today, islanders are not only faced with the necessity of defining and articulating "national" identities in multiethnic and multicultural nation states, they are also faced with redefining their cultural and social identities as their lives and communities are barraged by change (Lockwood 2004: 31).*

*Our cultural identities are always in a state of becoming, a journey in which we never arrive; who we are is not a rock that is passed on from generation to generation, fixed and unchanging. Cultural identity is a process (Hereniko 1997: 428-429).*

## Course Material

All the readings listed in the syllabus for each session will be posted in Resources. In addition; each week's topic will be accompanied by a PowerPoint—converted into PDF file—which may contain (required) additional textual information.

## Class Participation

Students are required to login regularly to the online class site. The instructor will monitor student activity. Students are also required to participate in all class activities such as Forums or eventual conference sessions. The same guidelines that apply to traditional classes should be observed in the virtual classroom environment. Please use proper “netiquette” when interacting with class members and the instructor.

## Policy on Lulima unavailability or other technical difficulties

In addition to a confident level of computer and Internet literacy, certain minimum technical requirements must be met to enable a successful learning experience. Please review the “Intro to Lulima” file posted on "Announcements."

The Outreach College is committed to providing a reliable online course system to all users. However, in the event of any unexpected server outage or any unusual technical difficulty which prevents students from completing a time sensitive assessment activity, students should immediately report any problem using the "Request Assistance" link at the bottom of any page in Lulima; help@hawaii.edu is for general ITS Help Desk and it is more useful for general technical questions. In both cases, you should immediately send a copy of your report to me using Lulima, or directly at guido@hawaii.edu.

## Communications

This online course has built-in communication tools which will be used for interaction and communication. Some external communication tools such as regular email may also be used during the semester.

Interaction with the Instructor: the instructor will communicate with students mainly using the Lulima built-in tools. Students may send personal concerns or questions to the instructor using the built-in communication tool. The instructor will reply to student personal messages or discussion board messages within 3 working days under normal circumstances.
