ISLAND LIVES -- A SELECTED BIBLIOGRAPHY OF BIOGRAPHIES

This is a sampling of resources. Some are quite dated, but may be useful in gathering information for individuals active in the latter part of the 20th century. The handout is specifically geared to biographical information on Pacific Islanders, and includes a selection of published biographies and autobiographies of historical and current interest. The periodicals and indexes cited are by no means the only sources available, but an indication of resources at UH that may assist in some biographical research. As is the case for other handouts used in the course, this listing covers the Pacific Islands excluding Hawaii, as we have a separate course (LIS 687) that deals with resources concerning Native Hawaiians.
