Recall Details

In Conjunction With:

Description:

This recall involves Shearwater yellow pressure diving transmitters. The transmitters provide a tank pressure reading for scuba divers. The transmitter is yellow, with a cylindrical shape and measures 3 inches in length. "FCC ID: MH8A" is printed on the end of the transmitter. Part number 13009 or 13009-01 is printed on the cardboard packaging along with an 8 digit serial number starting in FK or BM etched on the side.

Remedy:

Consumers should immediately stop using the recalled transmitters and contact the firm to arrange a free repair or exchange of the transmitter.

Incidents/Injuries:

The firm has received one report of loss of communication using the transmitter during a dive.

Sold At:

Dive Right In Scuba and Online Scuba stores nationwide and online at www.divegearexpress.com and www.shearwater.com from June 2017 through November 2018 for about \$350.

Manufacturer(s):

Pelagic Pressure Systems, of San Leandro, Calif.

Distributor(s):

Shearwater Research Inc., of Richmond, B.C. Canada

Manufactured In:

United States

Recall number:

19-070
