

DIVER: YOU MUST DOWNLOAD & TAKE THESE FORMS TO THE EXAM!

APPENDIX 1

University of Hawaii Diving Safety Program

DIVING MEDICAL EXAM

INSTRUCTIONS FOR THE EXAMINING PHYSICIAN

******PLEASE READ CAREFULLY******

TO THE EXAMINING PHYSICIAN: This person, _____, requires a medical examination to assess his/her fitness for certification as a Scientific Diver for the University of Hawai'i. His /her answers on the attached Diving Medical History Forms may indicate potential health or safety risks as noted. Your evaluation is requested on the attached Scuba Diving Fitness Medical Evaluation Report. If you do not have expertise in diving and hyperbaric diving medicine and if any response or test result is outside normal limits, before making your determination you should consult with authorities possessing such expertise. Please contact the undersigned Diving Safety Officer if you have any questions or concerns about this examination or the University of Hawai'i standards. Thank you for your assistance.

David F. Pence, Diving Safety Officer
 University of Hawaii - EHSO
 2040 East-West Rd., Honolulu, HI 96822
 phone: (808) 956-9643 fax: 956-6952 email: dpence@hawaii.edu
<http://www.hawaii.edu/ehso/diving-safety>

THIS EXAMINATION IS TO VERIFY THE FITNESS OF THE EXAMINEE TO ENGAGE IN OCCUPATIONAL DIVING. SCUBA AND OTHER MODES OF COMPRESSED-GAS DIVING CAN BE STRENUOUS AND HAZARDOUS. A special risk is present if the middle ear, sinuses or lung segments do not readily equalize air pressure changes. The most common cause of distress is Eustachian insufficiency. Most fatalities involve deficiencies in prudence, judgment, emotional stability or physical fitness. Please consult the following list of conditions, which usually restrict candidates from diving. (Adapted from Bove, 1998: 61 - 63, bracketed numbers are pages in Bove)

CONDITIONS WHICH MAY DISQUALIFY CANDIDATES FROM DIVING

1. HISTORY OR SUSPICION OF COVID19 INFECTION – SEE ATTACHED GUIDANCE
2. Abnormalities of the tympanic membrane, such as perforation, presence of a monomeric membrane, or inability to autoinflate the middle ears. [5,7,8,9]
3. Vertigo including Meniere's Disease. [13]
4. Stapedectomy or middle ear reconstructive surgery. [11]
5. Recent ocular surgery. [15,18,19]
6. Psychiatric disorders including claustrophobia, suicidal ideation, psychosis, anxiety states, untreated depression. [20 - 23]
7. Substance abuse, including alcohol. [24-25]
8. Episodic loss of consciousness. [1, 26,27]
9. History of seizure. [27, 28]
10. History of stroke or a fixed neurological deficit. [29,30]
11. Recurring neurologic disorders, including transient ischemic attacks. [29,30]
12. History of intracranial aneurysm, other vascular malformation or intracranial hemorrhage. [31]
13. History of neurological decompression illness with residual deficit. [29,30]
14. Head injury with sequelae. [26, 27]
15. Hematologic disorders including coagulopathies. [41, 42]
16. Evidence of coronary artery disease or high risk for coronary artery disease¹. [33 - 35]
17. Atrial septal defects. [39]
18. Significant valvular heart disease - isolated mitral valve prolapse is not disqualifying. [38]
19. Significant cardiac rhythm or conduction abnormalities. [36 - 37]
20. Implanted cardiac pacemakers and cardiac defibrillators (ICD). [39, 40]
21. Inadequate exercise tolerance. [34]
22. Severe hypertension. [35]
23. History of spontaneous or traumatic pneumothorax. [45]
24. Asthma². [42 - 44]
25. Chronic pulmonary disease, including radiographic evidence of pulmonary blebs, bullae or cysts. [45,46]
26. Diabetes mellitus. [46 - 47]
27. Pregnancy. [56]

Classification of divers based on severity of COVID-19 suspected illness

Category 0 <i>NO history of COVID-19 suspected illness</i>	Category 1 MILD <i>COVID-19-suspected illness</i>	Category 2 MODERATE <i>COVID-19-suspected illness</i>	Category 3 SEVERE <i>COVID-19-suspected illness</i>
<p>Definition: Divers who have no history of COVID-19 suspected illness should proceed with normal evaluations. Additionally, we would use these criteria in those who may have had a positive screening PCR or antibody test, but without any history of illness or symptoms consistent with COVID-19.</p>	<p>Definition: <ul style="list-style-type: none"> ● Did not seek health care or received outpatient treatment only without evidence of hypoxaemia. ● Did not require supplemental oxygen ● Imaging was normal or not required </p>	<p>Definition: <ul style="list-style-type: none"> ● Required supplemental oxygen or was hypoxic ● Had abnormal chest imaging (chest radiograph or CT scan) ● Admitted to the hospital but did NOT require mechanical (intubation) or assisted ventilation (BIPAP, CPAP) or ICU level of care. ● If admitted, had documentation of a normal cardiac work up including normal ECG and cardiac biomarkers e.g. troponin or CK-MB and BNP </p>	<p>Definition: <ul style="list-style-type: none"> ● Required mechanical (intubation) or assisted ventilation (BIPAP, CPAP) or ICU level of care. ● Cardiac involvement defined as abnormal ECG or echocardiogram, or elevated cardiac biomarkers; e.g. troponin or CK-MB and BNP (or absence of documented work up) ● Thromboembolic complications (such as PE, DVT, or other coagulopathy) </p>

Recommendations for evaluations of divers or diving candidates

Category 0 <i>NO history of COVID-19 suspected illness</i>	Category 1 MILD <i>COVID-19-suspected illness</i>	Category 2 MODERATE <i>COVID-19-suspected illness</i>	Category 3 SEVERE <i>COVID-19-suspected illness</i>
<ul style="list-style-type: none"> ● Initial/periodic exam per ADCI guidelines ● Chest radiograph only if required per professional group ● No additional testing required 	<ul style="list-style-type: none"> ● Initial/periodic exam per ADCI guidelines ● Spirometry ● Chest radiograph (PA & lateral); if abnormal, obtain chest CT ● If unknown (or unsatisfactory) exercise tolerance*, perform exercise tolerance test with oxygen saturation 	<ul style="list-style-type: none"> ● Initial/periodic exam per ADCI guidelines ● Spirometry ● Chest radiograph (PA & lateral); if abnormal, obtain chest CT ● ECG ● Echocardiogram (if no work up was done as an inpatient. Can forgo if had negative work up) ● If unknown (or unsatisfactory) exercise tolerance*, perform exercise tolerance test with oxygen saturation ● Investigation and management of any other complications or symptoms per provider and professional group or RSTC guidelines 	<ul style="list-style-type: none"> ● Initial/periodic exam per ADCI guidelines ● Spirometry ● Chest radiograph (PA & lateral); if abnormal, obtain chest CT ● ECG ● Repeat cardiac troponin or CK-MB and BNP to ensure normalization ● Echocardiogram ● Exercise Echocardiogram with oxygen saturation ● Investigation and management of any other complications or symptoms per provider and professional group or RSTC guidelines

** If the physician is not assured the diver's self-reported exercise level meets appropriate criteria or is concerned it would not reveal underlying cardiac or pulmonary disease, further testing is warranted.*

**UNIVERSITY OF HAWAI'I DIVING SAFETY PROGRAM
MEDICAL EVALUATION OF FITNESS FOR SCUBA DIVING REPORT
APPLICANT'S RELEASE OF MEDICAL INFORMATION**

I authorize the release of all medical tests and information associated with this examination, and all medical information subsequently acquired in association with my diving under the auspices of the University of Hawaii to the UH Diving Safety Officer, Diving Control Board and/or their designee(s) at:

UH Diving Safety Program
Environmental Health and Safety Office
University of Hawaii at Manoa
2040 East-West Rd.
Honolulu, HI 96822

Signature of Applicant _____ Date: _____

Applicant Printed Name _____

**UNIVERSITY OF HAWAI'I DIVING SAFETY PROGRAM
APPENDIX 2
MEDICAL EVALUATION OF FITNESS FOR SCUBA DIVING REPORT**

Name of Applicant (Print or Type)

Date (Mo/Day/Year)

TO THE PHYSICIAN: This person is an applying, or is presently certified, to engage in diving with self- contained underwater breathing apparatus (SCUBA) in the workplace. This activity puts unusual stress on the individual in several ways. Your opinion on the applicant's medical fitness is requested. Scuba diving requires heavy exertion and prudent safety decision making on the part of the diver. The diver must be free of cardiovascular and respiratory disease. An absolute requirement is the ability of the lungs, middle ear and sinuses to equalize pressure. Any condition or medication that risks the loss of consciousness should disqualify the applicant.

THE FOLLOWING ARE MINIMUM REQUIRED TESTS:

POST-COVID19 INFECTION OR SUSPECTED INFECTION

- As described in Appendix 1 Instructions to the Examining Physician

INITIAL EXAMINATION AND WHEN DEEMED NECESSARY BY PHYSICIAN

- Chest X-Ray

INITIAL and PERIODIC RE-EXAM (Every 5 yr. < Age 40; Every 3 yr. Age 40 – 60; Every 2yr. Age > 60)

- Medical History, INCLUDING screening for COVID19 INFECTION
- Complete Physical Exam, with emphasis on neurological and otological components
- Spirometry
- Hematocrit or Hemoglobin
- Urinalysis
- Any further tests deemed necessary by the physician, including recommended evaluations for post-COVID 19 infection, as described in guidance.

PATIENT OVER AGE 40, AND WHEN DEEMED NECESSARY BY PHYSICIAN

- Resting EKG
- Assessment of coronary artery disease using Multiple-Risk-Factor Assessment¹ (age, lipid profile, blood pressure, diabetic screening, smoker)

Note: Exercise stress testing may be indicated based on risk factor assessment²

PHYSICIAN'S STATEMENT: I have evaluated the above individual according to the University of Hawai'i medical standards for scientific diving as described in Appendix 1, and find no conditions that may be disqualifying. I have discussed with the patient any medical condition(s) that would not disqualify him/her from diving but which may seriously compromise subsequent health. The patient understands the nature of the hazards and the risks involved in diving with these conditions.

RECOMMENDATION (check one):

- APPROVAL.** As the basis for this recommendation, I have conducted and considered the results of all tests as specified above and find no medical condition(s) that I consider incompatible with diving.
- RESTRICTED ACTIVITY APPROVAL.** The applicant may dive in certain circumstances as described in REMARKS.
- FURTHER TESTING REQUIRED.** I have encountered a potential contraindication to diving. Additional medical tests must be performed before a final assessment can be made. See REMARKS.
- NOT APPROVED.** This applicant has medical condition(s), which, in my opinion, clearly would constitute unacceptable hazards to health and safety in diving.

NOTE: SIGNATOR MUST BE AN M.D. or D.O.

APPENDIX 3
UNIVERSITY OF HAWAI'I DIVING MEDICAL HISTORY AND EXAMINATION FORM

Section 1A. Diving Medical History Form (To Be Completed By Applicant-Diver)

Name _____ Sex _____ DOB: _____ Wt. _____ Ht. _____

Sponsor _____ Date ____/____/____
(Dept./Project/Program/School, etc.) (Mo/Day/Yr)

Mailing Address: _____

Phone: (____) _____ email: _____

TO THE APPLICANT:

Scuba diving makes considerable demands on you, both physically and mentally. Diving with certain medical conditions may be asking for trouble not only for yourself, but also for your buddy, other dive team members, or anyone coming to your aid if you get into difficulty in the water. Therefore, it is prudent to meet certain medical and physical requirements before beginning a diving or training program.

Your answers to the questions below are as important in determining your fitness as your physical examination. Obviously, you should give accurate information or the medical screening procedure becomes useless.

This form shall be kept confidential. If you believe any question amounts to invasion of your privacy, you may elect to omit an answer, provided that you must subsequently discuss that matter with your own physician and he/she must then indicate, in writing, that you have done so and that no health hazard exists. Should your answers indicate a condition, which might make diving hazardous, you will be asked to review the matter with your physician. In such instances, his/her written authorization will be required in order for further consideration to be given to your application. If your physician concludes that diving would involve undue risk for you, remember that he/she is concerned only with your well-being and safety.

Please respect the advice and the intent of this medical history form.

Have you ever had or do you presently have any of the following? Please answer Yes or No. Explain affirmative responses under "Comments".

Yes / No / NA A. Has your medical history changed since your last diving medical examination?

- Yes / No 1. Trouble with your ears, including ruptured eardrum, difficulty clearing your ears, or surgery.
- Yes / No 2. Trouble with dizziness.
- Yes / No 3. Eye surgery.
- Yes / No 4. Depression, anxiety, claustrophobia, etc.
- Yes / No 5. Substance abuse, including alcohol.
- Yes / No 6. Loss of consciousness.
- Yes / No 7. Epilepsy or other seizures, convulsions or fits.
- Yes / No 8. Stroke or a fixed neurological deficit.
- Yes / No 9. Recurring neurologic disorders, including transient ischemic attacks.
- Yes / No 10. Aneurysms or bleeding in the brain.
- Yes / No 11. Decompression sickness or embolism.
- Yes / No 12. Head injury
- Yes / No 13. Disorders of the blood, or easy bleeding.
- Yes / No 14. Heart disease, diabetes, high cholesterol
- Yes / No 15. Anatomical heart abnormalities including patent foramen ovale, valve problems, etc.
- Yes / No 16. Heart rhythm problems.
- Yes / No 17. Need for a pacemaker
- Yes / No 18. Difficulty with exercise.
- Yes / No 19. High blood pressure
- Yes / No 20. Collapsed lung
- Yes / No 21. Asthma.
- Yes / No 22. Other lung disease.
- Yes / No 23. Diabetes mellitus.

- Yes / No 24. Pregnancy
- Yes / No 25. Surgery If yes explain below
- Yes / No 26. Hospitalizations. If yes explain below
- Yes / No 27. Do you take any medications? If yes list below
- Yes / No 28. Do you have any allergies to medications, foods, or environmental? If yes explain below.
- Yes / No 29. Do you smoke?
- Yes / No 30. Do you drink alcoholic beverages?
- Yes / No 31. Is there a family history of high cholesterol?
- Yes / No 32. Is there a family history of heart disease or stroke?
- Yes / No 33. Is there a family history of diabetes?
- Yes / No 34. Is there a family history of asthma?

Please explain any "yes" answers to the above questions:

DIVER'S CERTIFICATION: I certify that the above answers and information represent an accurate and complete description of my medical history.

Signature: _____ Date: _____

Section 1B. COVID19 SCREENING QUESTIONNAIRE

NAME: _____ **DOB:** _____ **DATE:** _____

COVID-19 SYMPTOMS.

Since January 2020:

(Please Circle)

1. Have you had a positive swab (PCR) or blood (antibody test) for COVID-19? If YES, date of test(s): _____ NO / YES
2. Have you had any of the following unexplained symptoms? (Check all that apply) NO / YES
 Cough, Shortness of breath, Difficulty breathing,
 Fever, Chills, Shivering, Muscle aches,
 Headache, Sore throat, Loss of taste or smell, Diarrhea
3. Did you miss any days of work due to the above symptoms? NO / YES
4. Have you had severe respiratory illness with clinical or x-ray evidence of pneumonia, or acute respiratory distress syndrome? NO / YES
5. If YES to question 2-4, were you diagnosed with any illness other than COVID19? NO / YES
 other than COVID-19?
 If YES, what illness: _____
6. Are you having any symptoms currently? NO / YES
7. Do you feel anxious or depressed about the COVID-19 pandemic or working?

EXERCISE TOLERANCE.

1. What is your normal exercise routine? _____

2. Has there been any change in your ability to do your normal exercise or exertion? NO / YES
3. If YES to question 2, why can't you do your normal exercise? _____

Stop here if you answered no to all above questions.

HEALTHCARE:		
1. Did you seek healthcare related to the symptoms you experienced above?	NO	YES, what level of healthcare? <input type="checkbox"/> Outpatient <input type="checkbox"/> Hospital admission <input type="checkbox"/> Intensive Care Unit
2. Did you have a low blood oxygen level or require supplemental oxygen?	NO	YES
3. Was a chest x-ray or CT scan done?	NO	YES, it was: <input type="checkbox"/> Normal <input type="checkbox"/> Abnormal
4. Did you require assisted ventilation (BiPAP, CPAP, ventilator)?	NO	YES
5. Was an evaluation of your heart done (EKG, echocardiogram, blood tests)?	NO	YES, it was: <input type="checkbox"/> Normal <input type="checkbox"/> Abnormal
6. Did you have any blood clots or blood clotting problems?	NO	YES

Section 3. MEDICAL EXAMINATION. To be completed by the Doctor.

Last Name: _____ First Name: _____ M.I.: _____

Date of Birth: _____ Sex: _____ Height: _____ Weight: _____

MEDICAL HISTORY REVIEW: Is there any significant past history, or current condition or medication, which might disqualify the applicant for diving? Yes / No

Remarks: _____

General Appearance: _____

Blood Pressure: _____ Pulse: _____

Vision: Uncorrected: R/ _____ L/ _____ Corrected: R/ _____ L/ _____

Color Test: _____ Normal _____ Deficient.

EXAMINATION: Please check all items and, if abnormal, give details.

	Normal	Abnormal	Comments
1. Head and neck	_____	_____	_____
2. Nose, Sinuses	_____	_____	_____
3. Ear Canals	_____	_____	_____
4. Ear Drums	_____	_____	_____
5. Ear clearing	_____	_____	_____
