

## ▶ Introduction

---

Tests and measurements are survey tools that gauge certain traits, aptitude, habits, or needs. This guide will help you locate test information, test reviews, and full text copies of tests.

## ▶ Electronic Resources with Tests, Scales and Measurements

---

The University of Hawaii at Manoa subscribes to several online databases that are accessible on-campus and remotely. Remote access is available to UH Manoa students, faculty and staff with activated UH ID cards, and will require you to enter your name and barcode. To access databases select E-Resources & Databases from the Library's Home Page:  
<http://library.manoa.hawaii.edu/>

### **ETS Test Collection Databases**

Indexes over 20,000 standardized tests and other measurement devices from the early 1900s to the present. These research instruments are available in microfiche (S50005) at Hamilton Library.

### **Digital Dissertations**

Indexes doctoral and masters work of authors from over 1,000 graduate schools and universities dating back to 1861. Full text from 1997 on is available. Some dissertations include tests, scales and measurements in the appendix.

### **Health and Psychosocial Instruments (HaPI)**

Provides information on measurement instruments (i.e., questionnaires, interview schedules, checklists, index measures, coding schemes/manuals, rating scales, projective techniques, vignettes/scenarios, tests).

### **PsycINFO Database**

A bibliographic database that indexes all published research in psychology since 1967. Try using one of the following phrases with your keyword search: test appended, scale appended, survey appended, instrument appended, or questionnaire appended.

## ▶ Print Resources with Tests, Scales and Measurements

---
