NEWS & ANNOUNCEMENTS

- [New Release / Mod List](#) (Last updated 12-15-2005)
- Per [BAC 2006-01](#), Federal Allowable High/Low Rates were amended so effective January 1, 2006, **taxability and reportability no longer apply to Non-BU07 employees traveling Out-of-State (U.S./CONUS)**. eTravel has been updated to reflect this so IRS Rate column is no longer required for CONUS travel. See [Powerpoint](#) for summary info. (Updated 01-30-2006)
- The matrix for Collective Bargaining Unit Rates have been revised. See the Allowable Rates page. (Updated 01-27-2006)

Click icon below to log into Profiler.

What is Profiler?

A new application developed by Information Technology Services (ITS) for the purpose of centralizing user profile information for various web applications in one place.

The primary benefit for users is that they input and control information about themselves in one place. As new systems are developed, information can be retrieved from Profiler vs. each user repeatedly registering themselves in individual applications.

How does Profiler work?

Within Profiler, each user has a "General" profile which contains user-editable personal information, like their name and contact information. All users that have a UH Username/Password may login and create/update that profile, which can then be used by multiple web applications.

There is also a "Travel" profile used specifically by the new eTravel application. This is where users designate "Travel Preparers" and a default "Business Office Group" for eTravel documents.

What applications are currently using Profiler?

eTravel is the first application to utilize Profiler. ITS has several new applications under development that will use Profiler (Unit Budgeting, Leave Accounting).

At this time, no decision has been made regarding modifying older applications (ePurchasing, SECE, einventory) to take advantage of Profiler.

What is the difference between the UH Portal and Profiler?

The portal is where users go to access applications and information about the world at large. It's a central point of entry for various applications and services.

Profiler is where users go to store and update information about themselves, and where administrators store and manage information about what kinds of access users should have to applications.

OVERVIEW OF PROFILER

What is Profiler?

A separate application to centralize user information in one place. Currently, users must input and keep their contact information up-to-date in multiple places (SECE, ePurchasing, etc). Profiler is a long term solution to eliminate that problem. Profiler is also where users may designate "Preparers" and a default "Business Office Group" for eTravel documents. Go to [Profiler](#).

How does Profiler work with eTravel?

eTravel uses information in Profiler so Steps 1 and 2 below are required before you can login to eTravel. Steps 3 and 4 are optional depending on your role.

1 Login to Profiler

Anyone with a UH username/password can login.

Creating a General Profile

2 Create a General Profile

Required for all eTravel users. You must create a General Profile to login to eTravel. Note: You only need to do this once. Subsequently it is not necessary to login to Profiler to use eTravel.

This is for Fiscal Officer Use Only

4 Manage a Business Office Group

This option is only for Fiscal Officers. A "Business Office Group" enables the "Lead Fiscal Officer" of a department to grant FO-like authority to other users in their department, i.e. other FOs, Secretaries, Administrative Assistants, etc. Disbursing is responsible for establishing the Business Office Group for a specific FO Code. Subsequently, the Lead FO may add members to his/her group by FO Code or UH Username (as shown below).

After a traveler is logged into eTravel, the main menu screen below will appear.

The screenshot shows the eTravel main menu interface. At the top, it says "University of Hawai'i eTravel" and "Welcome Traveler One (trvlr1)". A "logout" button is in the top right. The main menu is divided into three sections: "Create", "Existing Documents", and "Help".

Callout boxes:

- "Traveler's Name will appear here." points to the "Welcome Traveler One (trvlr1)" text.
- "Click here to create a new travel request." points to the "Create" button.
- "Click here to show all existing documents." points to the "Existing Documents" button.
- "Click here for additional help." points to the "Help" button.
- "If you know your document number, you may enter it here and click 'find'." points to the search input field in the "Existing Documents" section.
- "Click here to create a new travel completion." points to the "New Travel Completion" link under the "Create" section.
- "If you are unsure of a document number, you may look up the document by clicking any of the numbers in this table depending on the document type. For example to see all 'Completions', 'In Process', click '11'. A listing of all of the 11 documents will be provided." points to the table below.

Table:

	InProcess	Submitted	Approved	Vouchered	Outstanding
Requests	2	1	16		
Req+Advance	7	0	4	45	
Completions	11	11	29	2	50

Note:

- Travelers can only view their own travel documents.
- Preparers can view their own travel documents and travel documents for travelers that have identified them as preparers.
- Fiscal Officers can view all travel documents within their FO Groups.
