1. Annual Program Review

Section A5 of the articulation agreement states, "Campuses are expected to improve their HAP programs. So that evolving HAP programs remain in compliance with the approval criteria, annual HAP program review will be conducted by each campus and annual re-articulation by the systemwide committee will take place." To do this, each campus is asked to submit an annual report – a campus self-assessment – and to summarize that report at the group's annual meeting.
