

**4** The pups' heads aren't as wide as an adult's head. But they'll grow bigger in a few months.

**5** One shark pup swims to the sea floor and digs its head into the sand. What's it doing?

**6** The pup is digging up some tasty shrimp. Yummy stuff! Some of the other hammerhead pups find the food, too. Soon everyone is digging in for a quick bite. Not bad for a first day's catch!
