Legislative Testimony

Testimony Presented Before the
House Committee on Agriculture

And

House Committee on Labor and Public Employment

Wednesday, March 21, 2018 at 10:40 a.m.

By

Nicholas Comerford

Dean, College of Tropical Agriculture and Human Resources

And

Michael Bruno

Interim Vice Chancellor for Academic Affairs

Vice Chancellor for Research

University of Hawai'i at Mānoa

SB 3030 SD1 – RELATING TO AGRICULTURE

Chairs Creagan and Johanson, Vice Chairs DeCoite and Holt, and members of the House Committee on Agriculture and Committee on Labor and Public Employment:

Thank you for this opportunity to testify in support of the over-all concept of SB 3030 SD1 which appropriates funds to the Department of Agriculture for establishing a farmer mentor program, as well as curriculum development for the program in the area of whole farm systems.

CTAHR strongly supports a whole farm system approach that focuses on maintaining and enhancing soil health. Whole farm systems include the diverse approaches to agriculture ranging from certified organic farming to integrated livestock/farming. The basic component of these systems is sustainable soil organic matter management, combined with integrated pest management under a verifiable economic umbrella. They typically include conservation tillage, cover crops and a well-designed cropping system.

Another important aspect of this curriculum should be teaching the economics of scale in order to assure that the farmers being trained in the program understand that a commercial operation has to be a certain size in order to become profitable (depending on the value of the crop), particularly given the costs of production involving food safety regulations. A whole farm system has the opportunity to lower the production inputs, hence making the operation more commercial.

We also suggest that a necessary component of a whole farm system curriculum is that it be based on well-documented science that passes the test of the peer review system.

Thank you for this opportunity to testify in support of the over-all concept of the bill, but leave it to the Department of Agriculture to decide if this is within its mission.
