This paper was originally prepared for Working Group 4, Trade and Health, Commission on Macroeconomics and Health.

* The World Trade Organization performed research for the paper prepared for the Commission on Macroeconomics and Health. A summary of this research is included in the main text of this report (pages 60-64) and the research is presented in full in Annex C (pages 79-96). This research has been prepared by the WTO Secretariat on its sole responsibility, and does not reflect the views of WTO Members.
