DISTRIBUTION OF GRADES IN UNDERGRADUATE COURSES WITH 100
OR MORE STUDENT REGISTRATIONS AND IN "KILLER" COURSES
UNIVERSITY OF HAWAI'I AT MĀNOA
FALL 2005

Objective

The objective of this study was to examine the grade distributions and credit earned ratios for certain populations of students enrolled in undergraduate level courses at the University of Hawai'i at Mānoa in Fall 2005. The courses of interest were those enrolling 100 or more students and so-called "killer" courses (defined below). The data for the study were taken from the end-of-semester course and registration tables developed by the UH system Institutional Research Office.

Courses with 100 or More Student Registrations

Of the 1,662 undergraduate level courses (courses numbered 70 to 499) offered in Fall 2005, 146 (8.8%) had 100 or more student registrations. 73 courses were at the 100 level, 34 at the 200 level, 34 at the 300 level and 5 at the 400 level. 105 of the courses were in Arts & Sciences, with the greatest number in Natural Sciences (36), followed by Social Sciences (28), Languages, Linguistics and Literature (23) and Humanities (17). 15 courses were in Education and 12 were in Business Administration.

Although these 146 courses accounted for only 8.8% of the courses offered at the undergraduate level, they represented 48% of all registrations in undergraduate level courses. At the 100 level, courses with 100 or more registrations accounted for 79% of all registrations, at the 200 level 53%, at the 300 level 27% and at the 400 level 6%.

The average credit earned ratio in all these courses was 88.1%. This ratio compares favorably to the 88.3% ratio for all undergraduate level courses. Results varied somewhat by course level, with higher ratios at the more advanced course levels. The average credit earned ratios by course level were 86% at the 100 level, 87% at the 200 level, 93% at the 300 level and 92% at the 400 level.

Of the 33,084 student registrations, 3,926 (11.9%) had no credits earned. 1,962 students (5.9%) had failing grades (F) and 1,708 students (5.2%) withdrew. 33% of the students earned A grades, 28% B grades, 20% C grades, and 6% D grades.

"Killer" Courses

Killer courses were defined by the UH Mānoa Chancellor's Office as courses at the 100 and 200 level (excluding courses numbered 199 and 299) in which 30% or more of the student registrants earned grades of D, F, W or NC. The denominator used in the calculation of the qualifying percentage included all grade types (including I - Incomplete, L - Auditor and No Data).

Of the 1,662 undergraduate courses offered in Fall 2005, there were 48 "killer" courses (2.9%). 18 (37.5%) of the courses were at the 100 level while 30 (62.5%) were at the 200 level. 38 of the courses were in Arts and Sciences, with the greatest number in Natural Sciences (23). The subject with the most killer courses was Math with 9 courses (8 courses at the 200 level). Computer science had 4 courses, while Music, Astronomy, Biology and Chemistry had 3 each.

Of the 4,843 student registrations in killer courses, 3,546 earned credits for an average credit earned ratio 73.2%. (Note, this rate is comparable to the rate calculated for the previous section, and includes grades A, B, C, D, and CR only). In contrast, 1,297 students (26.8%) did not earn credits. 1,828 students (37.7%) had grades of D, F, W or NC.

Grade Key

- CR = Credit Earned on Credit / No Credit option
- I = Incomplete
- L = Audited
- NC = No Credit Earned on Credit / No Credit option
- W = Withdraw
- No Data = Blank

Note: Table aggregates data for all classes with the same course number. Average grades are calculated, registrations are summed, and so forth.
