- Summer courses must be self-supporting. Therefore, courses must have a minimum of 12-14 students as REGISTERED and PAID participants to offer the course. Please contact your adviser, then check with the LIS office for course information. This will help us to estimate the number of students who will be taking the courses and give a warning if a course must be canceled.
- Students taking a 3-week course can only sign up for one at a time.
- Students may not simultaneously take a six-week class and a three-week class during the same period.
- Students can work with Internship supervisors to schedule their 150 hours at any point in the summer. In order to ensure sufficient hours, students taking LIS 690 may only sign up a maximum of 12 summer credits in summer including LIS 690. There will be a required LIS 690 orientation in May, and mandatory student presentations in August.
