Field Notes:

The Mission of the Lyon Arboretum:

To increase the appreciation of the unique □ora of Hawai'i and the tropics, by conserving, curating, and studying plants and their habitats; providing inclusive educational opportunities; encouraging use by the broader community; and supporting the educational, scienti□c, and service activities of the University of Hawai'i.

Vision Statement

The Lyon Arboretum will be the destination for all those seeking an intimate understanding and appreciation of tropical systems; knowledge of the traditional uses of the land; and a celebration of the intersection of biological and cultural diversity.
