REQUEST FOR STATEMENTS OF QUALIFICATIONS NO. 12-018

FOR PRECONSTRUCTION AND CONSTRUCTION SERVICES

FOR

THE CULINARY INSTITUTE OF THE PACIFIC AT DIAMOND HEAD
UNIVERSITY OF HAWAI‘I KAPIOLANI COMMUNITY COLLEGE
HONOLULU, HAWAI‘I
PROJECT NO. UH 12-018

OFFICE OF CAPITAL IMPROVEMENTS
UNIVERSITY OF HAWAI‘I SYSTEM
April 23, 2012

The University of Hawai‘i (“University”) is soliciting Statements of Qualifications for a General Contractor (“Contractor”) to provide Preconstruction and Construction Services (collectively the “GC services”) for the Culinary Institute of the Pacific at Diamond Head, Kapiolani Community College (“Project”) in accordance with the University’s Administrative Procedure A8.280.3, which can be found on the UH website: http://www.hawaii.edu/apis/apm/a8200/proc/A82803.pdf. This procurement procedure is for qualifications-based construction procurement for negotiated construction, primarily for design-assist construction projects. The GC services to be provided by the selected Contractor include the following:

(1) **Preconstruction services.** The Phase 1 design of the Project is nearly complete. The preconstruction services for this phase will focus on, without limitations, cost confirmation, value engineering, construction scheduling, and constructability review. The preconstruction services for Phase 2 include, without limitation, design assist; constructability review and cost estimation services; quality control; efficient constructability; cost management and effective scheduling.

(2) **Construction services.** The construction services required during the construction phase to complete the construction of the Project.

This Request for Statements of Qualifications (RFSOQ) is the means for prospective Contractors to express their interest to be considered for the Project and to submit additional information on their qualifications for the specific services described in this document. This additional information will supplement the required Contractor Questionnaires that must be submitted by prospective Contractors via the Office of Capital Improvement’s website (OCI Website) http://www.hawaii.edu/oci/main.html. The RFSOQ and all associated documents and amendments are available in electronic form at the OCI Website http://www.hawaii.edu/oci/main.html on the “Projects” page.
The University of Hawai‘i has the right to cancel this RFSOQ in its sole discretion at anytime prior to the award of the contract when such action is in the best interest of the University.

1.0 Purpose of this RFSOQ

The University seeks to contract with a Contractor for the preconstruction and construction of the Project as described in Section 2.0. Selection will be made on the basis of qualifications. The University intends to select a Contractor in a timely manner. All Contractors responding to this RFSOQ must hold a valid State of Hawai‘i contractor’s license B and must have successfully submitted their Contractor Questionnaires on the OCI Website.

2.0 Project Description

The Culinary Institute of the Pacific Project is a new 204,644 square feet culinary instruction facility. It is envisioned as a culinary academic village. The facility is comprised of multiple buildings and will be constructed in two (2) phases.

2.1 Background

The Culinary Institute of the Pacific at Diamond Head, Kapi‘olani Community College (hereinafter the Project) is envisioned to be Hawai‘i’s premier advanced culinary training facility where expertise in Asian, Pacific, and Hawaiian cuisine can be acquired through its educational programs. Its mission is “to offer Hawai‘i and the global community opportunities in career, technical, and cultural education/training in culinary management/science.” It is envisioned to be a place where relevant curricula and efficient operations will be supported by professional teams; where the facilities will exceed industry standards and where culinary community partnership is encouraged and promoted. The Culinary Institute of the Pacific hopes to achieve its mission “through increased levels of advanced culinary instruction, operational excellence, multi-industry alliances, and the promotion of lifelong learning”.

The project site for the Culinary Institute of the Pacific lies on the northern slope of the Diamond Head State Monument at the former location of the U.S. Army Fort Ruger Cannon Club. The property is 7.878 acres and is bounded on the north by Diamond Head Road, on the east, south, and west by the Diamond Head State Monument (DHSM), and Trousseau and Wauke Streets. The site is terraced in form by the Cannon Club asphalt parking areas and concrete building slabs.

All the buildings in this academic village will be single-story. They are clustered around landscaped outdoor gathering spaces and organized along connecting walkways. The buildings have been sited to make use of existing terraces and to work with the hilly terrain as much as possible. The buildings have also been positioned to preserve existing
trees while new native or Polynesian-introduced planting will be blended into the existing hillside.

2.2 Phase 1

Phase 1 includes a Classroom building with distance education capabilities, 3,684 square feet; the instructional culinary lab buildings consisting of a Pastry Kitchen, 2,420 square feet; a Bakery Kitchen, 2,420 square feet; an Asian Cooking Lab, 3,260 square feet; a Multifunction Cooking Lab, 3,260 square feet; a Central Plant (equipment, storage, lockers, showers), 2,870 square feet; and an Outdoor Cooking Cultural Theme Plots and Imu Pit Area.

Each kitchen will be provided with dedicated food preparation space tailored to its unique requirement; community preparation areas which include equipment designed for specialized refrigeration, cutting, mixing, wrapping or washing, as well as individual preparation stations within student workstations and equipped with warewashing facilities as required. The latest water saving technologies will be utilized in all warewashing and scrapping equipment.

Positioned midway between the classroom building and the instructional culinary lab building is the connective function of the Outdoor Cooking area and Cultural Theme Plots. In keeping with the concept of kauhale (traditional Hawaiian settlements), the Outdoor Cooking Area is located in the center of the community and will provide a cultural focal point for the campus.

2.3 Phase 2

Phase 2 which completes the campus includes a Competition and Demonstration Auditorium, including an information and security station is 7,250 square feet; a Four Star Signature Restaurant, 12,359 square feet; an Administration and Faculty Offices, including an adjacent restroom building, 5,270 square feet and the entry Pavilion, 390 square feet.

2.4 Additional Construction Information

The buildings shall be constructed with a combination of building materials. All the buildings shall be built upon concrete slabs on grade. Exterior walls shall be split-face concrete masonry units (CMU), cast stone veneer on CMU, and wood siding on stud-framed walls. Building fenestration will be comprised of predominantly aluminum curtain wall systems. Pitched roof forms shall be insulated metal standing seam panels while low-slope roofs will be protected by fluid applied membrane.

The design emphasizes the use of natural daylight as a passive architectural energy conservation feature as well as for improving the quality of the indoor environment.
buildings are oriented with their long axes along an east-west alignment to maximize favorable indirect north daylight and the roofs are configured to allow generous clerestory glazing where possible. Eastern and western wall openings are minimized to avoid solar heat gain and glare during the early morning and late afternoon. The primary spaces of the Classrooms shall have operable windows to allow occupants to enjoy natural ventilation during favorable weather, to conserve energy, and to provide a connection with the outdoor environment.

The project is proposed to be, at a minimum, Leadership in Energy & Environmental Design (LEED) Silver for both Phase 1 and Phase 2.

3.0 Responding to this Request for Qualifications

The University has developed the schedule of events (see Section 6.0) with dates for this solicitation process. The RFSOQ and schedule are subject to change. Contractors are advised to visit the OCI Website frequently to check for changes and updates to the RFSOQ, including the Schedule. The University does not send notifications of changes to this RFSOQ or the schedule to prospective Contractors and is not responsible for failure of any Contractor to receive notification of any change in a timely manner. Prospective Contractors must take the following actions according to the specified timelines in order to participate in this process.

3.1 Interest in Responding to RFSOQ

Contractors who intend to respond to this solicitation are requested to notify the University by sending an e-mail to carollt@hawaii.edu with the RFSOQ number and name in the subject line. Please include the names, address, telephone number, fax number, and email address of the Contractor (firm) and contact person.

3.2 Submit Requests for Clarification re: the RFSOQ and E-mail Intent to Respond:

If your organization wishes to submit questions prior to submission of a Statement of Qualifications (hereinafter SOQ), questions must be sent in an e-mail to the following e-mail address: “carollt@hawaii.edu” and must include the following in the e-mail subject line:

“GC Qualification (Culinary Institute of the Pacific at Diamond Head, Kapiolani Community College): RFSOQ 12-018 Questions + (the name of your organization)”.

Answers to questions will be posted on the OCI website on the page/link of this RFSOQ.
3.3 Costs For SOQ Preparation

Any costs incurred by Contractors in preparing or submitting the SOQ shall be the sole responsibility of the Contractor, will not be reimbursable by the University, and cannot be included in any GC services fee proposal (either the Preconstruction Services of the Construction Services fees.

3.4 Preparing and Packaging Your Statement of Qualifications:

Statements of Qualifications should provide straightforward, concise information that satisfies the requirements noted in this RFSOQ. Expensive binding, color displays, and the like are not encouraged. Emphasis should be placed on brevity, conformity to the University’s instructions, selection criteria of this RFSOQ, and completeness and clarity of content.

Each Contractor’s SOQ should clearly and accurately demonstrate specialized knowledge and experience required for consideration. In a sealed envelope (clearly marked “Statement of Qualifications – (firm name) Diamond Head, Kapiolani Community College: RFSOQ 12-018, submit the following:

   a) One (1) compact disk containing the complete SOQ;

   b) One (1) original and four (4) copies in paper form of the SOQ, which consists of a Cover Letter and responses to the qualification requirements listed in Section 5.0.
       The prospective Contractor shall describe its specific responses to the selection criteria, numbered and titled as listed in Section 5.0.

Any questions regarding this solicitation document shall be directed in writing via e-mail to the Technical Representative of the Procurement Officer (TRPO). The TRPO for this RFSOQ is:

   Caroll Takahashi
   Email address: carollt@hawaii.edu

3.5 Nondisclosure Of Designated Trade Secrets Or Proprietary Information

If the Contractor’s SOQ contains proprietary information (including trade secrets) that the Contractor desires to keep confidential, the Contractor shall clearly designate, mark, and separate out such proprietary information as confidential. The Contractor’s SOQ shall also contain a letter requesting nondisclosure of such proprietary information, including, without limitation, any trade secrets, and such letter shall specify, identify, and describe the portion of the Contractor’s SOQ and the proprietary information that the Contractor desires to keep confidential. Any such proprietary information accompanying
the Contractor’s SOQ shall be labeled CONFIDENTIAL and easily separated in order to facilitate eventual public inspection of the non-confidential portion of the SOQ. The Contractor may not designate its entire or majority portion of its SOQ as proprietary and confidential and any such attempted designation may, at the University’s sole discretion, be grounds for disqualifying the Contractor. If the University disagrees with the Contractor’s designation of proprietary information, the University will notify the Contractor. If the Contractor is not willing to abide by the determination of the University, the University may reject all or any portion of the Contractor’s SOQ containing the claimed proprietary information in dispute. By submitting the SOQ, each Contractor acknowledges and agrees that the University is subject to public disclosure requirements, such as Chapter 92F, Hawai‘i Revised Statutes, and if it is determined that certain information contained in Contractor’s SOQ must be disclosed by the University pursuant to such requirements, the University will disclose such information and the Contractor will not have and shall release and discharge the University from any claim or action relating to such disclosure of information from the Contractor’s SOQ.

3.6 Availability of Funds

Contractors are advised that the award of this contract is contingent upon availability of funds. If funds are not available, the University reserves the right not to make award of this contract.

3.7 Notice To Proceed

The University shall not be responsible for work done, even in good faith, prior to the University's Notice to Proceed, unless specific provisions are made in the contract.

3.8 RFSOQ Submittals Become Property Of The University

All SOQs and other materials submitted shall become the property of the University and may be returned only at the University's option.

4.0 Evaluation and Selection Process

It is the intention of the University to negotiate a contract with the first-ranked contractor based on the qualifications of the Contractor, as demonstrated by their evidenced competence and experience to accomplish the work of this project in their SOQ. Fees are not the controlling criteria.

The Statements of Qualifications of those Contractors who have timely submitted their SOQ will be evaluated and scored by members of a selection committee, which will be comprised of at least three University employees possessing applicable qualifications and experience. Each member of the selection committee will assign a point score according to the grading schedule in Section 5.0. Points assigned by the individual committee
members will then be combined to determine a total score for each Contractor. The University shall thereafter negotiate a contract with the first-ranked Contractor. If a satisfactory contract cannot be negotiated with the first-ranked Contractor, such negotiations shall be terminated and negotiations with the other Contractors in order of their rankings shall commence. Negotiations shall be conducted confidentially.

The University will have the option to invite the Contractors to give a presentation on their Statement of Qualifications. Contractors being interviewed are required to include members of their proposed preconstruction team that will perform the work of the Project. The presentation and responses during the interview process will be used to clarify and validate the Contractor’s Statement of Qualifications.

5.0 Selection Criteria

Contractors and their Statements of Qualifications will be evaluated according to the following criteria:

1. Experience and qualifications relevant to project type:
   a. Experience and qualification of the Company. The age of the firm and its average number of employees over the past five years, including actual number of employees in 2010 and 2011; including:
      i. The financial capability and capital and operating resources available to the Contractor in providing the GC services described in this invitation for the Culinary Institute of the Pacific at Diamond Head, Kapiolani Community College;
      ii. Any litigation, criminal convictions, arbitration, administrative proceeding or formal complaint(s), including mechanics liens filed by or against the Contractor during the last five (5) years resulting from or attributable to its current or past involvement with any major construction projects;
      iii. Any formal complaints filed against the Contractor’s entity or company with the State of Hawai‘i Department of Commerce and Consumer Affairs, the State of Hawai‘i Department of Labor and Industrial Relations or with any other state or federal agency;
      iv. Any pending or threatened litigation, arbitration, or administrative proceeding against or by the Contractor. Provide details and an opinion of legal counsel that the pending or threatened litigation, arbitration, or administrative proceeding will not impair, hinder, limit or otherwise interfere with the Contractor’s ability to perform the GC services required under this invitation;
      v. Any pending or proposed transactions or agreements to merge, sell, expand down-size, consolidate, streamline, or modernize the general contractor's entity or company;
vi. Any information relating to the filing of: (a) bankruptcy actions, (b) debtor proceedings, (c) any case or proceeding, voluntary or involuntary, by or against the Contractor, Contractor as debtor, under any provision of the federal bankruptcy code, (d) any case or proceeding, voluntary or involuntary, by or against the Contractor, under any state statute governing any debtor or creditor rights, seeking to have an order or decree rendered against the Contractor directing any readjustment, arrangement, composition or reduction of the Contractor’s debts, liabilities or obligations or making any assignment for the benefit of creditors or any similar actions;

vii. Any contracts or agreements involving the Contractor (whether or not involving major construction projects) that have been terminated prior to the full performance or completion of the services required thereunder or the expiration of the term identified in the contract or agreement, including, without limitation: (1) the parties to the contract or agreement, (2) the type and value of the project involved, (3) the Contractor’s role in or the type of services provided by the Contractor under the contract or agreement, (4) the start and termination dates, (5) project milestones achieved by the project and the Contractor (6) the reason(s) why the prior contract or agreement was terminated, (7) the circumstances surrounding or affecting the Contractor’s performance under the prior contract or agreement, (8) the Contractor’s role or contribution to the termination of the prior contract or agreement, and (9) the names, addresses, telephone numbers (including cell phone numbers), fax numbers, and email addresses of the project manager or person with similar authority who was employed by the client or entity for whom the Contractor performed these GC services under such prior contract or agreement. **15 points**

b. **Experience relevant to preconstruction and construction services.** Describe the Contractor’s experience in relation to preconstruction (design assist) and construction of a culinary training facility including a four star signature restaurant and infrastructure of comparable complexity and/or scope of work, including the nature and quality of recently completed work. Describe the working relationship between the architect, owner and contractor during the preconstruction phase and major issues and solutions encountered. **15 points**

c. **Experience relevant to type of construction.** Describe the Contractor’s experience in relation to construction of low-rise buildings systems, i.e. wood, concrete, steel, including the benefits and costs related to each alternative building system, and the specific nature and quality of recently completed work within the last five (5) years. **10 points**
d. **Experience in the State of Hawai‘i and City and County of Honolulu.**
   Describe the extent and depth of the Contractor’s experience and knowledge, within the last five (5) years of:
   
   i. State of Hawai‘i and the City and County of Honolulu’s unique construction industry, including local construction conditions and practices, working with labor unions, and relationships with local subcontractors;
   
   ii. City and County of Honolulu’s governmental agencies and permitting processes. **10 points**

e. **Professional staffing capabilities.** Describe the experience of the personnel that will be assigned by the Contractor to be performed by the two teams, one for the preconstruction and the other for the construction services described in this RFSOQ. A critical part of this evaluation will be the Contractor’s listing of the personnel to be assigned by the Contractor to perform the preconstruction and construction services separately, described in this RFSOQ, including (1) each project staff’s resume detailing his or her specific construction background and experience, (2) the Contractor’s proposed organizational chart for the project team that would be assigned to this project, (3) a description of the Contractor’s lines of authority generally and for the Project in particular, and (4) the description of the duties and responsibilities for each of such personnel assigned to perform the preconstruction and construction services for the Project. The Contractor should highlight key personnel and their qualifications, including resumes, assigned to the Project. **15 points**

**SUBTOTAL FOR CRITERIA 1 = 65 Points**

2. **Past performance on projects of similar scope for public agencies or private industry, including corrective actions and other responses to notices of deficiencies:**

   a. **Past performance with the University, or any Hawai‘i government entity.** Describe the Contractor’s past performance in working with the University, any federal, state, or county government entity located in Hawai‘i, or any other college or university in Hawai‘i, in the construction of projects of comparable complexity and/or scope of work. Describe the qualifications, the extent and depth of the experience of the specific personnel and their job description on comparable projects who will be assigned by the Contractor to work on this project. Provide at least five (5) applicable references. **5 points**

   b. **Past performance in taking corrective action.** Describe the Contractor’s past performance in taking corrective action and other responses to notices of deficiencies in the construction of projects of comparable complexity and/or scope of work. **5 points**
3. **Experience and professional qualifications relative to LEED (Leadership in Energy and Environmental Design) projects:** 5 points

Describe the Contractor’s experience in preconstruction and construction phases of projects of comparable complexity and/or scope of work achieving LEED certification, and the level of certification.

4. **Preconstruction and Construction Services Fees.** **10 points**

These fees stipulated by the Contractor will be evaluated based on the points assigned to this criteria.

   a. **Preconstruction Services fee.** Stipulate and describe the structure, composition, and amount of the Contractor’s fee for the Preconstruction Services portion of the GC services for the Project, including any discounts, refunds, and reimbursables. Each Contractor should specify the time duration assumed.

   b. **Construction Services Fee.** Stipulate the total overhead, profit & fees, as expressed as a percentage of the total construction cost.

   c. **Restrictive conditions.** Describe any restrictive conditions and deadlines or additional requirements requested by the Contractor in relation to the payment of any of the fees for the Preconstruction Services or the Construction Services and/or the reimbursable expenses.

5. **Capacity to accomplish the work in the required time:** **10 points**

Describe the Contractor’s ability to meet project schedules, including examples of recently completed design assist projects of comparable complexity and/or scope of work.

**TOTAL POSSIBLE POINTS PER COMMITTEE MEMBER = 100 points**

6.0 **Request for Qualifications Submittal Timetable**

The University intends to pursue the following schedule for the review and consideration of all Statements of Qualifications submitted to the University. Any revisions to this schedule will be posted on the Office of Capital Improvements Website.

**Friday, April 23, 2012: Notice of Request for Statements of Qualification.** Post the notice of Requests for Statements of Qualification on the Office of Capital Improvements Website.
Thursday, April 27, 2012, 4:00 p.m.: Requests for Clarification Deadline. Requests for Clarification must be received by the University no later than 4:00 p.m. (Hawai‘i Standard Time) via e-mail to the following e-mail address:

Caroll Takahashi
Email address: carollt@hawaii.edu

Wednesday, May 2, 2012, 4:30 p.m.: Answers to Requests for Clarification Deadline.

Friday, May 11, 2012, 2:00 p.m.: Statements of Qualifications Submittal Deadline. Statements of Qualifications must be received by the University no later than 2:00 p.m. (Hawai‘i Standard Time) addressed and delivered to:

Brian Minaai, Associate Vice President for Capital Improvements
Office of Capital Improvements, University of Hawai‘i System
Attention: Advanced Technology Training Center for the Honolulu Community College
1960 East West Road, Biomedical Sciences Bldg. B-102
Honolulu, Hawai‘i 96822

One (1) compact disc (CD) containing the complete SOQ, One (1) original and four (4) copies of each Contractor’s Statement of Qualifications must be submitted at that time. Statements of Qualifications submitted via electronic mail will not be accepted.

Week of May 14, 2012: Evaluate Statements of Qualifications. The selection committee will evaluate and score the Contractor Questionnaires as submitted on the OCI website and the Statement of Qualifications of those Contractors who have made timely submittals.

Week of May 14, 2012: Presentation/Interviews The selection committee, at its option, may request Contractors to make a presentation on the information submitted in the SOQ.

Week of May 21, 2012 or thereafter: Selection notification. At that time or whenever the University is prepared to do so, the University will notify the first ranked Contractor and commence with negotiating a preconstruction services contract. If a contract at a fair and reasonable price cannot be negotiated with the first ranked contractor, such negotiations shall be terminated and negotiations with the other contractors in order of their rankings shall commence. Negotiations shall be conducted confidentially.

The contract award shall be posted electronically on the Office of Capital Improvements (OCI) Website http://www.hawaii.edu/oci/main.html within seven (7) days or thereabouts of the contract award and shall remain posted for at least one year.

7.0 Debriefing

Culinary Institute of the Pacific at Diamond Head Kapiolani Community College
UH 12-018

Request for Statements of Qualifications (RFSOQ) Preconstruction and Construction Services
Page 11 of 12
The purpose of a debriefing is to inform the Contractors of the basis for their non-selection for award. A written request by a non-selected Contractor for a debriefing shall be made within three working days after the posting of the award of the contract. Debriefings shall be held by the University, to the maximum extent practicable, within seven (7) working days of receiving a timely written request for debriefing.

8.0 Construction Phase

Award of the construction phase of the Project to the selected Contractor is subject to the following:

a. University has determined that (i) the selected Contractor has satisfactorily performed and completed the preconstruction services portion of the GC services, including, without limitation, the design assist, constructability review and cost estimating services (collectively the Preconstruction Services); and (ii) after the Project design and construction documentation phases, the selected Contractor remains the general contractor offering the University the most advantageous option for completing the Project construction;

b. University has the sole discretion to proceed with the construction services portion with the selected Contractor to build and complete the Project after the Project design development and construction documentation phases are completed, and is subject to available funding and other circumstances affecting the University’s decision at that time; and

c. University and the selected Contractor have successfully concluded negotiations and reached agreement on the terms of the contract covering the Construction Services for the Project (Construction Contract).

9.0 Fees for Preconstruction Services

See attached.
