Student Success Pathway: A national and state perspective

- Guided Pathways is a national movement for community college reform to build intentionally designed, clear and structured educational experiences, at scale, for students from point of entry to completion and transfer or career.

- UHCC Student Success Pathway (SSP) is aligned with the national Guided Pathways movement.

- SSP is not the next step in a long line of reforms, but a FRAMEWORK that helps to unify a variety of reforms.

- Process starts with the students’ career and end goal in mind

- Pathway model is based on a decade of research and supported by organizations such as Achieving the Dream, Complete College America, American Association of Community Colleges, Community College Research Center, Jobs for the Future, Completion by Design.

- 14 states in the Student Success Center Network, including Hawaii, are committed to Guided Pathways

- 47% of the nation’s community college students, and 67% of the nation’s minority students reside in these states

- 30 colleges selected by American Association of Community Colleges (AACC) to participate in the first round of the national Pathways Project.

- UHCC’s focus is on three areas: Math and English Redesign, Academic and Transfer Pathways, and Just-In-Time Support Services for students using the Pathways framework
