The World-of-Work Map arranges Career Areas (groups of similar jobs) into 12 regions. The location of a Career Area shows how much it involves working with PEOPLE, THINGS, DATA, and IDEAS. Although the locations of jobs in an area differ, most are near the point shown. Your location on the World-of-Work Map is based on the 72 activity preferences you reported on the ACT Interest Inventory. To identify related college majors, see the steps below the map.

HOW TO USE THE MAP:
1. Find your map regions in the Interest Inventory section on the reverse side of this report and enter them in the box above. (If “Region 99” is reported, your activity preferences did not indicate particular map regions to explore.)
2. Find your region numbers on the map and circle them. Note the work tasks (working with PEOPLE, THINGS, DATA, IDEAS) shown for your map regions. Then, look over the Career Areas in or near the regions you circled.
3. If you wish to consider college majors related to those Career Areas, see the list to the right. Information on hundreds of college majors and occupations is available at www.actstudent.org.

Keep in mind that map regions (like other test scores) are estimates. They provide suggestions, not decisions. Also, your interests and abilities may differ. Both need to be considered in career planning.
