Meeting Highlights

Present: Russell Uyeno (Hon), Susan Pope (Kap), Debie Amby (Maui), April Komenaka Scazzola (UHH), Myrtle Yamada and Ryan Bungard (UHM), Brian Richardson and Kevin Morimatsu (Win), Kathlen Lee (Kaua‘i), Thanh Giang and Joanne Itano (UH System)

See meeting handouts (http://www.hawaii.edu/offices/app/aa/sai.html, under Curriculum Central, Meeting Summaries - July 28, 2011)

Suzette Robinson from the Vice President for Community Colleges shared the expectations of VP Morton. Curriculum Central is to be implemented in Fall 2011, with full implementation in Fall 2012. The linking of program outcomes and course outcomes are to be available for the ACCJC accreditors to view (Fall 2012 visit) and also linking to institutional/GE outcomes if the campus so chooses to do so. If the CC campus has not expended the $5000 from the 2010-2011 AY, this money is still available for use to implement curriculum central. For example, one campus suggested using the funding to scan course outlines to be uploaded into Curriculum Central.

Banner information in Curriculum Central is not updated as it is static data. Susan was to write up an enhancement report to move the tab to the end rather than it being the first tab. Thanh will evaluate how much time it would take to move the tab all the way to the right. (Note: discussion with Banner Central about possibly replacing the information on this tab with a link to Banner, so updated information is always available)

ER 14 needs to be implemented prior to Aug 15, the faculty first day of duty. Thanh will send out a reminder email to request any more issues about ER 14 before he moves it to the production server.

User group function described. The campuses who are actively working on implementation will be included in weekly calls starting mid September. Campuses that are just starting will be assigned an experienced campus to work with them.
