- 1. Portfolios:** KauCC, MauiCC and UHWO proposals were unanimously approved, effective with courses approved for the Spring 2009 semester.
- 2. Effective date discussion:** The articulation agreement went into effect with approved Spring 2009 courses for all eight participating campuses. However, some campuses that were approved in Spring 2008 thought that the agreement covered Summer and Fall 2008 courses. The group discussed whether the multicampus agreement should be retroactively made effective Summer (or Fall) 2008.

#### Pros:

- Will help some students
- Sections were approved by local HAP Boards

#### Cons:

- Compromises the integrity of the process
- Changes may result in some students having incorrect information
- Unfair to those campuses that followed the old process/procedures

Each campus rep was asked to find out a) which of its Summer and Fall 2008 HAP sections were not covered under the old articulation agreement and b) how many students were enrolled in these sections.

- 3. Articulation logistics:** Fujikawa will check with STAR, Banner, and the individual campuses to determine the best way to have the HAP Focus articulate “seamlessly.”
- 4. Next meeting:** Week of March 8.
