Raymi Faria & Angela Jackson
COLLEGE and CAREER ready?

Plan the path for your best future with interactive quizzes, personalized planning tools and college, career and financial resources.

Student  Adult Learner

MyFutureHawai'i is the State of Hawai'i's comprehensive online platform for college and career planning and exploration, empowering all Hawai'i learners to take control of their future and create their most rewarding life.
Project Partners

- University of Hawaii
- Hawaii State DOE
- Hawaii P-20
- DLIR/Workforce Dev. Council
- Graduation Alliance Online Solutions
Participating Schools
32 schools participating with 10,058 active student accounts

OAHU: Waipahu HS, Waipahu Inter, Kaimuki HS, Waialua High & Inter, Kahuku High & Inter, Nanakuli High & Inter, Waianae HS, Waianae Inter, Olomana, McKinley HS, Kailua HS, Kamaile Academy

KAUAI: Kauai HS, Waimea HS, Kapaa HS, Kanuikapono PCS

MOLOKAI: Molokai HS

MAUI: King Kekaulike HS, Lahainaluna HS, Hana High & Elem., Maui HS

BIG ISLAND: Kealakehe HS, Kohala HS, Keauu HS, Ke Kula O Ehunuikaimalino, West Hawaii Explorations Academy, Pahoa High & Inter, Kau High & Pahala Elem, Hilo HS, Konawaena HS, Waikeha HS, Kanu O Ka Aina NCPCS
Key Student Features

• Interests, skills, and values assessments
• Career search database of 1,000 careers from O*net and Career Kokua
• College research tools of 4,000+ college and university profiles
• Application, recommendation, transcript, and scholarship management
• UH Application Integration
• FAFSA, college costs and financial aid resources
• Course planning and academic and score monitoring
• Activities tracking and resume building
UH Application Submission

- The application process is basically the same.
- **Benefits:**
  - Demographic and academic data is pre-populated with eSIS data. Students should verify data before finalizing applications.
  - Students do not create a UH online application login and pin – this has been synchronized with their MyFutureHawaii login. Students should always log in via the students’ MyFutureHawaii portal in order to access an application that was started in MFH.
  - School counselors can view students’ real-time application submission status.

3 Career Assessments

Get To Know Yourself

<table>
<thead>
<tr>
<th>Overview</th>
<th>What Do I Like?</th>
<th>What Do I Value?</th>
<th>What Are My Skills?</th>
<th>My Interests</th>
<th>My Values</th>
<th>My Skills</th>
</tr>
</thead>
</table>

Many students make the mistake of trying to “fit the mold” of different career paths. In reality, the best career choice may be one that naturally fits you. So how do you figure out what careers fit you? Take a look at these inventories!

**What Do I Like?** assesses your interests and work “personality.” The inventory asks you to rate how much you like (or don’t like) different work activities. Do you prefer working with your hands, working with people, or working with computers? The inventory results fit into 6 “Interest Areas” that can help give you a better idea of what type of work you would like.

**What Do I Value?** asks you to prioritize different “Work Values.” Work Values are your personal rule book for your working life. Knowing your values can make the difference between finding a job that you love and being stuck in a job you hate.

**What Are My Skills?** introduces you to the fundamental building blocks of work activity. Learning about what skills you have, and how they match with careers, can help you guide your studies and early career choices.
RIASEC

Your Interest Inventory results describe your career preferences based on six characteristics of your personality. This system – sometimes known as “Holland Codes” – was developed by psychologist John L. Holland to help match personality and career. The six “Interest Areas” include Realistic, Artistic, Investigative, Social, Enterprising, and Conventional. Personalities are a blend of the different Interest Areas. You may find that on some days you are more “Enterprising” and other days more “Investigative.”

Your top three scores are:

- **Artistic**
- **Investigative**
- **Social**

You have scored 0 occupations that match the Holland Personality Code of Artistic (A), as the first choice, Investigative (I), as the second choice, and Social (S), as the third choice.

64 occupations have been found with Holland Codes that are similar to what you selected.

**IAS**
- Political Scientists
- Sociologists

**ISA**
- Clinical Psychologists
- Naturopathic Physicians

My Top Interests

- First: Artistic
- Second: Investigative
- Third: Social

Learn More About Investigative Careers

Artistic

Artistic personalities are the “creative” types. They dislike working within traditional methods and ideas, and are often “pushing the envelope.” They may seem “complicated” or “spontaneous” to other personality types. People with strong Artistic tendencies may enjoy careers in the arts and media.

- Example Career
- Physicians and Surgeons
- Web Developers
- Economists

Learn About Careers

School Counselors

Occupation Characteristics

Overview

School counselors help students learn about career and education choices. They counsel students about personal problems.

In the 1989 movie "Say Anything," Lloyd Dobler (played by John Cusack) is a high school senior with two interests: kickboxing and his girlfriend, Diane Court. At dinner with Diane’s father, he utters these lines: "I don’t want to sell anything, buy anything, or process anything as a career. I don’t want to sell anything bought or processed, or buy anything sold or processed, or process anything sold, bought, or processed, or repair anything sold, bought, or processed." In fact, Lloyd manages to go through the whole year without seeing Mrs. Evans, the school counselor. Understandably, the school counselor is concerned about his future. She tries to track him down so she can help him prepare for life after high school. But to no avail - until the graduation party. Just when he thought it was safe! She finally corners him there and is able to do her job. In high schools, school counselors help students evaluate their abilities and interests. They talk with students about their goals for the future. Sometimes school counselors give students tests to get more information about their interests. They also look at school records to make sure students are taking classes that will help them meet their goals. School counselors run career centers and provide information about colleges. They advise students about college testing, admissions, and financial aid. They set up interviews with college representatives. School counselors also work with students who do not plan to go to college. They advise these students about technical school or apprenticeship programs. In addition, they provide information about joining the armed forces. School counselors teach all students job search skills. In career guidance classes, they teach students how to fill out job applications and write resumes. They also teach job interview skills. In elementary and high schools, school counselors help students deal with personal and social problems. They work with students individually or in small groups. They counsel students and teach classes on dealing with anger and violence. They also provide services such as drug and alcohol prevention programs. In addition, school counselors try to identify domestic abuse. They meet with parents, teachers, and school administrators. School counselors meet with faculty and staff to explain available counseling services. They study occupational, educational, and economic information in order to stay current in their field. They also attend professional meetings, educational conferences, and teacher training workshops.
Determine Education & Training Reqs

Professional Qualifications

Skills and Abilities

Knowledge

Interests and Values

Preparation

To work as a school counselor, you must:

- have a high school diploma or GED; have a bachelor's degree; complete a master's degree in counseling or a related field; complete a supervised counseling experience; have a strong interest in helping others; and have excellent communication skills.

Education after high school—Most school counselors have a master's degree in counseling, education, or a related field. You may specialize in college student affairs, school counseling, education, or career counseling. You typically take courses in human growth and development, social and cultural diversity, and relationships. Additional courses include working in groups, career development, and assessment. Some colleges offer training in career and vocational counseling beyond the master's level. These advanced studies are often called Certificate of Advanced Study or Advanced Graduate Specialist programs. Most graduate programs require completion of a supervised work experience or internship.

On-the-job training—Some employers train new counselors in testing and interviewing techniques. School counselors attend classes and seminars each year to update their skills and knowledge. School counselors must complete a certain number of continuing education hours each year. This allows them to remain certified as a school counselor or maintain a professional license.

Military training—The military trains people to work as caseworkers and counselors. This training lasts from eight to ten weeks. Further training occurs on the job and through advanced courses.
Career Outlook

Outlook

In Hawaii, faster than average employment growth is expected for educational, vocational, and school counselors through the year 2018. Job openings are expected to result from both employment growth and replacement needs. Nationally, the number of jobs for school counselors is expected to grow faster than average through the year 2018.

The table below provides information about the number of workers in this occupation in various regions. It also provides information about the expected growth rate and future job openings.

Schools, colleges, and universities Job training services

The number of students in school is expected to increase. This will create a greater demand for counselors. In addition, the number of duties counselors have is growing. This means each one must do more. Additional counselors will be needed so that students have access to them. However, growth in this occupation will be limited by school budgets. Counseling programs are some of the first items that are reduced when budgets are cut.

Advancement Opportunities

Experienced school counselors can move to a larger school for a better paying job with more duties. Some counselors become school administrators. Others work at colleges.

Current Employment

Around 1,390 educational, vocational, and school counselors are employed in this medium-sized occupation in Hawaii. Nationally, around 29% of all counselors are men. Nationally, around 246,890 educational, vocational, and school counselors work in this occupation.
