*Includes courses taken in both spring and summer 2014. Spring grades were initially processed in July. Including the term again in this September run was intended to include new spring students who also registered for fall classes. In addition to being a classified (or ASC) student, WCC also requires that the student be enrolled in the following semester before they will process transfer credits.

- **Student Population** – “Default” is defined as all students who are home campused at their institution and pursuing a declared program of study (unclassified and early admission are excluded). Campuses who run the process using a pop select define their own student population.
- **No. of Students Processed** – Total number of students included in the student population.
- **No. of Courses Processed** – Total number of summer 2014 cross-registered courses for the student population.
- **No. of Courses Moved** – Excludes courses that did not meet criteria entered by user (e.g. <100 courses, grades below “D,” courses >= 300, etc.)
- **No. of Courses Articulated** – Total number of courses that could automatically be articulated. Reasons why a course could not automatically articulate: no articulation rule built, equivalency lists one of two courses (“OR” statement), course credits do not match, etc.
- **Run Date** – Date the campus ran SZPARTI in “update” mode.
