

AATN Fall 2013 Meeting
UH Maui College – Campus update

Program majors: Maui College is looking at possibly creating a general studies major code to distinguish the differences between a true "liberal arts" major and a student who may be here to explore or be a lifelong learner.

Assigning counselors to students in banner: We are working on assigning all students a counselor/adviser via Banner.

New Hires: Through C3T grant Maui College has a transcript evaluator and 1/2 time career counselor.

Program Changes:

Electronics Computer Engineering Technology (AS-ECET) has modified program curriculum.

- The total credit requirements has decreased from 74 to 61 credits
- Reduction from a six semester program map to a four semester program map
- There are three courses/placement levels to take beginning courses: qualification of Math 82 (or pass Math 18) , completion of ICS 101, and qualification for ENG 100.

Health Navigator (certificate of completion)
