III. OTHER

10. Describe any significant issues regarding the HAP process on your campus.

11. Identify any issues for discussion for the Systemwide HAP Board.

Systemwide librarians creating bibliography to be made available to faculty applying for HAP designation; request is to take information from approved HAP application bibliographies.

Concerns: I find this problematic due to intellectual property (even of someone’s bibliography) and concerns over faculty who are not qualified to teach HAP being able to copy and paste sources into their own syllabi/applications, without possibly ever reading those sources or even being aware of their contents.

Possible alternative/suggestion: allow/create space on campus HAP apps so that faculty member can agree (or not) to their bibliography being shared.
