Transitioning to Kuali Student Curriculum Management

February 19, 2014
Goal

- Adopt KSCM language
- Refine campus course questions for use system wide
STEP 1

- Categorized campus course questions
- Anything that is not categorized with KSCM section falls to campus section

Note: this exercise brings the UH closer to a system that is easily migrated to KSCM. Nothing here is set in stone. Our goal is to clean up and prepare for migration.
STEP 2

- Sections
- Remove duplicates
- Develop common language
- Lock Curriculum Central Item Definition
- STEP 2 – Start Date
KSCM Sections

- Sections are KSCM default
- It is possible to rename/add new sections
  - For example, where to place campus questions that do not fit in KSCM section?
- At the campus level, there is a chance course questions were not properly defined.
KSCM Sections

- Possible revision to KSCM sections
Removing Duplicates

- Use common language for similar questions

For example, course alpha is used in the following ways:

- HAW – Course Alpha
- HIL – Course Alpha
- HON – Course Alpha
- KAP – Course Alpha [required field]
- KAU – Course Alpha
- LEE – Course Alpha
- MAN – Course Subject
- UHMC – Course Alpha. Please click on the ?...
- WIN – Course Alpha
- WOA – Course Alpha

Based on the above, it looks like ‘Course Alpha’ is the way to go. Repeat this step for all questions where there are duplicates.
STEP 2 - Exercise

Disclaimer

The screen designed for STEP 2 is for this exercise only

It's not meant to be or is being proposed for the final KSCM rollout
<table>
<thead>
<tr>
<th>COURSEALPHA (COURSEALPHA)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>HAW</strong></td>
</tr>
<tr>
<td>1. Course Alpha</td>
</tr>
<tr>
<td><strong>KAP</strong></td>
</tr>
<tr>
<td>1. Course Alpha (required field)</td>

<tr>
<td><strong>KAU</strong></td>
</tr>
<tr>
<td>5. Course Alpha</td>
</tr>
<tr>
<td><strong>LHMC</strong></td>
</tr>
<tr>
<td>1. Course Alpha. Please click on the ? to the right for help.</td>
</tr>
</tbody>
</table>

**SYSTEM**

TBD - this is the agreed upon text/language/wordage for this course question. When the system text is in place, campus defined text (above) will not show.
STEP 2 – Develop Common Language

- Adopt Banner language
- Adopt CCCM6100 language
- Adopt combination of Banner and CCCM6100

If we are able to capitalize on existing language, we’ll be done with STEP 2 sooner.
STEP 2 – Lock Item Definition

When STEP 2 begins, should we lock down course and campus item definitions?

Locking prevents changes which will create confusion with KSCM work.
STEP 2 – Next Step

Below is a screen capture of your CC Home page. Note the additions (Review & Discuss)

- Work on KCM – STEP 1
- Review – STEP 2
- Discuss – STEP 2
STEP 2 – Next Step

- Using CC’s message board to discuss STEP 2
- http://curriculumcentral.its.hawaii.edu:8080/central/core/ign.jsp
