I. Welcome and introductions

II. Discussion on campus implementation plans for FS to FQ change

III. Campus questions related to FS to FQ change
   a. If a student took a course that met FS designation, takes a break, and then comes back but now we have FQ and the course the student took that used to be FS is now FQ, does the student need to take another FQ course or will that FS course be accepted for FQ? For example, Math 140 has FS designation now and later it obtains FQ designation. How are campuses going to transfer it between campuses if there is a break in enrollment? Will a sister campus make a student, who has taken WCC’s Math 140 (FS), take another course to fulfill FQ?
   b. If any campuses will be allowing dual FS/FQ designation, what will be the process for dual FS/FQ designation if the course’s FS designation is expiring?
   c. At UHM, if a student takes a break for at most 1 year, the student is still considered as having continuous enrollment. Is this the “Leave of Absence” situation? Is it something that students have to apply for or can students just take a break and make sure to return no later than 1 year?

IV. Review Draft Quantitative Reasoning Application from Kaua’i CC

V. Update on QR Curriculum Redesign Workshop – Hokulani Aikau

VI. Other items
   a. Reminder: please update approved courses on the Approved Foundation Courses website (http://www.hawaii.edu/offices/app/aa/afc/)
   b. Spring meeting
