Curriculum Central

Barbara Hotta from Leeward CC provided an overview of Curriculum Central, a curriculum management tool. The CC system is moving forward to adopting its use across the 7 CC campuses. It has the potential to assist in articulation and transfer by providing mechanisms to notify other campuses about changes in courses during the curriculum review process.

Update UH Course Transfer Information Database

Patty Chong provided an update to this site. She has been working with Joe Dane from ITS to incorporate suggestions from this group. Joe asks the group to check the site for complicated transfer situations, to see if what appears is indeed accurate. He welcomes comments/suggestions (jdane@hawaii.edu). This network agreed to receive emails from Joe about changes to the website.

Patty, Erika and Joanne attended a DOSS’ meeting to demonstrate this site and the importance of maintaining its accuracy. A training session was suggested for those who do the equivalencies and those who input the info into SHATATR. This is scheduled for early June 2007 (Responses received from DOSS’ from Kauai, Hawaii, Leeward, Honolulu and Kapiolani).

UCA Report

Joanne Itano provided an overview of the UCA meeting in January 2007. The next meeting is on call.

Transfer Data

IRO has provided transfer data from two to four year campuses within the UH system. This will hopefully be an annual report.
