New Programs

CO Special Education II - The Special Education Certificate of Competence II is designed to provide more specialized and comprehensive preparation in special education law, IEP development, assessment, educational technology, literacy intervention, and professionalism for those pursuing a teaching degree in special education or wishing to increase their knowledge in the field of special education. The certificate is for candidates who have completed an associate-level degree and includes five 3-credits upper division special education courses and a 1-credit course in either behavior analytic training or professional collaboration. The certificate is not a licensure program in itself, but includes coursework that is part of an official articulation agreement for a 4-year degree leading to SPED teacher licensure.

Leeward CC is working on getting an Addendum to the 2018-2019 catalog. I will let you know when it is up.

HWST 261 number change to 276. But according to the HWST faculty, with the many modifications, she no longer believes that this course is equivalent to previous equivalencies made across the UH system and colleges should check their databases. LCC's HWST 261 (formerly HUM 261) has had equivalencies made by other campuses.

Changes to be in alignment with the system.
