### **Registration**

Leeward CC went “all in” for the new STAR GPS registration process for Spring 2017 (began in November 2016). We feel that much of the success of the launch of this is due to LCC’s STAR team, Stu Uesato, Tiana Loo, Heather Takamatsu, and Janel Oshiro. They did a lot of work to not only create the programs, but also set up numerous informational sessions for student to learn about the new registration process, and arranged to have students man tables demonstrating the process to students. The NSO team also incorporated the new registration information in all of its sessions.

### **Administration**
