1. Subsequent Enrollment is the sum of students enrolled at their intended 4-year institution at the end of semester immediately following their Automatic Admission. This is the cohort for Persistence counts.
2. Persistence, Graduation and Success data not available for all groups. Rates divide those counts by the Subsequent Enrollment of groups with available data.
3. For persistence, once students are counted as graduated, subsequent enrollments are no longer counted.
4. Graduated counts are cumulative, including only those who completed a degree at their intended campus. Degrees completed in summer are included with the preceding Spring.
5. Success is the sum of Persistence and Graduated. Rates divide this sum by the Subsequent Enrollment.
