Transfer to a UH Campus

Welcome to the University of Hawaii's website for transfer students.

A transfer student is one who has earned college credit at a regionally accredited college or university and plans to transfer to another college or university.

The UH campuses have different minimum number of credits hours that a student must have earned to be considered a transfer student.

The transfer of credits from one institution to another is directly related to the curriculum actions taking place at both the sending and receiving institution. Thus, the information on this website and its links are subject to change as the result of curriculum-related actions. It is essential that students contact an advisor/counselor early and often as they pursue their higher education.

Click on the links below for information on transferring to:

- University of Hawaii at Manoa
- University of Hawaii at Hilo
- University of Hawaii—West Oahu
- Community Colleges of the University of Hawaii

UH System Course Transfer Database

This site will help you find information regarding the transfer of credit courses into the various UH campuses. **Be sure to contact an academic advisor as the database is regularly updated and subject to change.** There are two sorts of searches you can run using this tool:

List mode

This search requires you to first choose two campuses: a campus from which you've taken a course, and a campus to which you like to transfer that course. It may be that you've already taken courses that you'd like to transfer, or it may be that you're considering a course and would like to see how that course transfers (if at all) to a different campus.

Explore mode

This search is useful when you know there's a certain course at a certain campus that you need to take, and you'd like to see which courses at other campuses might be used as an equivalent for that course. For example, you might be required to take Math 100 at UH Mānoa, but you'd like to see if there are any courses at Kapiolani Community College which you could take instead, while still fulfilling your requirement for Math 100 at Mānoa.

Courses designated as **equivalent** have been judged to have highly similar content such that two campuses treat the classes as essentially the same class. However, a designation of equivalency does not mean the two courses will satisfy the same requirements at different campuses.

Students must understand that courses designated as equivalent on this website:

- May differ in their ability to meet General Education requirements, college/school requirements, and major requirements.
- May only transfer as course credits without meeting general education, college/school, or major requirements.
- May not transfer as the same number of credits.
- May only reflect course equivalency designation for the current semester.

Academic Advising

The University of Hawaii - West Oahu believes that students function best in an intimate learning environment in which they are active contributors to their own educational planning. Such planning includes identifying individual educational goals and objectives, as well as future career and educational plans.

On admission, incoming students are assigned to a **Faculty Advisor**, based on their intended program of study. New and Returning students are required to meet with their faculty advisor during their first semester of enrollment at UH West Oahu. Registration for the next semester will be provided after a meeting has been verified. While only the first semester's meeting is mandatory, students are encouraged to continue to meet or contact their faculty advisor at least once each semester, prior to pre-registration or registration. Faculty advisors are an excellent source of information on academic planning, career/professional development, and admissions to graduate programs. If a student's interest shifts to another academic program, the student must report the change of program, in writing, to the Student Services Office. A new faculty advisor may then be assigned.
