

University Council on Articulation

October 31, 2008

10:00-12 noon

Video Conference Sites:

UHM, Bachman 113

Kauai CC, LRC 121

UH Hilo, Media Center 361

1. Welcome/Introductions (see membership list
http://www.hawaii.edu/vpaa/system_aa/uca/UCA_contacts10.20.08.pdf)
2. Update on Foundations and HAP Multicampus activities
3. Specific differences between Math 135 and Math 140 offered at UHM – Pat Patterson

From the 2008-09 UHM Catalog

MATH 135 Precalculus I (2) Algebra review, functions with special attention to polynomial, rational, exponential and logarithmic functions, composed and inverse functions, techniques of graphing. Credit allowed for either 135 or 140. Pre: two years of high school algebra, one year of plane geometry.

MATH 140 Precalculus (3) Functions, with special attention to polynomial, rational, exponential, logarithmic, and trigonometric functions, plane trigonometry, polar coordinates, conic sections. Pre: two years of high school algebra, one year of plane geometry, and assessment exam. **FS**

4. Transfer of AA degree to UHM

From Patrick Patterson, Hon CC, “As for the other courses that seem to be individually questioned for AA transfers, here are the details you wanted - I quote from a message sent me by our counselors:

1. Zool 141L
2. Zool 142L
3. Met 101L
4. MATH 103
5. MATH 107
6. QM 121
7. MATH 206L

8. HWST 110

9. OCN 201L. (Apparently this course is only accepted as an elective if taken between fall 2002 and fall 2007. Prior to fall 2002 a student would have been given lab credit for completing the course. But unfortunately someone at HCC was supposed to turn in a syllabi for the course and it was accidentally overlooked for a number of years. A syllabi was recently turned in and as a result students who complete the lab after fall 2007 were given lab credit once again.

The problem is that even though the course work apparently has not changed, the students who completed the lab between fall 2002 and fall 2007 must suffer because UH-Manoa will not go backwards and accept the credits taken during this time as lab work. My question is why are students penalized for clerical errors such as these? Isn't there something that we can do within the UH system to avoid similar problems?

5. Update on Ka'ie'ie agreement
6. Transfer Data
7. Other
8. Next meeting
