Date: May 17, 2011

Memo to: Members of the CCAO

From: Susan Matoba Adler, Chair
       UHWO Division of Education

Regarding: ATPs for BA in Early Childhood Education and B.Ed with Concentration in Early Childhood Education

Please note that the following ATP’s are being submitted together because they share resources such as faculty, support staff, and library resources, even though they draw from different student populations.

The BA in ECE is a new program, which was originally 2X2 BA in Social Sciences with a Concentration in ECE instituted at UHWO in 2006. This degree is articulated with Kauai, Hawaii, Honolulu Community Colleges and Maui College. It was always intended that this degree move to from Social Sciences to Education once a Division of Education was established.

The B.Ed with Concentration in ECE will be under the UHWO Bachelors of Education that currently has a Concentration in Elementary Education and will have Concentrations in Middle and Secondary Education.
