Aloha,  

There is no need for another telescope on Mauna Kea. I understand that the university of Hawaii is all about making money and accepting gifts. It is clear without even saying a word or releasing any "testimony". All of you who go under the guise of the Hawaiian warriors and cannot take a stand against foreign interest... A'ole change your mascot name and school to something more westernized. Your university secretly took all of us on a ride with the rail campaign on Oahu. A rail system that only benefits the university of Hawaii and which runs from campus to campus. This was done all in the name of greed... You stole the view from Oahu's southern shoreline all in secret. Shame.  

This is my testimony,  
Marshal Joseph k simpliciano jr.  
Kingdom of Atooi
