Aloha mai kākou,

My name is Kaleomanuiwa Wong. I am a Hawaiian scientist with 15 years of professional science experience, and I am in strong opposition of the building of the TMT on Maunakea. I am not at all opposed to a world class facility in Hawaii that could help further the understanding of our universe. The issue is the ramifications such a structure will have on our sacred mountain and our natural resources. The court ordered EIS has stated that the existing structures have caused “significant, substantial and adverse” harm to the environment. The TMT will compound this fact, which is in direct violation of State law for conservation districts, which Maunakea is designated. As a state entity, please do not continue to break state law. Please do not continue to support the TMT!

Ke aloha, Kaleomanuiwa Wong
