To whom it may concern,

I think I speak for the masses of people who do not agree with this telescope being built upon a mountain that already has some 13 telescopes on it. I am of Hawaiian descent and raised in these islands. I always knew the importance of protecting and respecting the sacredness of culture, people and the land, it isn’t that hard!!! Not just for Hawaiians, but any race it doesn’t matter!! We all grew up knowing the mana and sacredness of our mauna, MAUNAKEA and it truly makes me sad that money and greed can destroy what is important to the people!! I really had to educate myself more in depth about this development, even if we were given all the money in this world, the real issue would still remain that we were bribed just to HAUMAU, OR PANI KA WAHA! to shut us up in this fight to protect what belongs to our KUPUNA, OUR KEIKI, THE PEOPLE! it's just so wrong on all levels, politicaaly, enviornmentaly, and against some laws per say. I FEEL DEEP IN MY HEART THAT IF THIS TELESCOPE IS BUILT, I KNOW THAT WITHOUT A DOUBT THERE WILL BE REPERCUSSIONS FROM THE STRONG MANA THAT PREVAILS IN THIS MOUNTAIN!! WE LOVE OUR LAND, WE LOVE OUR CULTURE AND WE LOVE OUR PEOLE, OUR KEIKI, OUR KUPUNA!! DO WHAT'S RIGHT!
