Aloha, my name is U'ilani Kalahiki,
   I would like to take this time express my feelings about this matter on TMT. I feel that this whole matter can be summed up in just 1 sentence, we are not against the tmt, we are against the location that you would like to put it. That's the whole point. I also feel if you folks don't take this time to come to an understanding about this and not listen to what we are saying this will turn into something bigger, and I don't think you folks are not ready for that. Now this is not a threat in any way. But take a look at how much this issue has already grown. This is without our news media, radio stations, and local stations covering this matter. Imagine when it's time for the coverage?.

   I will leave you with this though, I urge you to not build this, because we will not stop protecting our aina, we will not stop fighting for our aina and believe me we will keep protecting until no end because we've been doing this all these years, just quietly, now we are raising our voices so everyone can here and support us.

   Mahalo for your time and understanding. Do what is right in your heart.
