Aloha, I write to you in the spirit and power of Aloha. My family lineage can be traced to the first people to take stewardship of this ‘Aina, however this is no longer a strictly oiwī issue. It is a frivolous pursuit to ruin a significant site for simply a, “better view”. It is wrong and hurtful and would be a travesty to future generations of oiwī and malahini alike. Enough construction, when will it stop? 30 m telescope today… 60 m telescope in 10 years? Soon the land will be a city. All for a better view.. A’ole, think about it, with Aloha.
