Comment
Since when is scientific advancement of greater importance then preserving and protecting or sacred Hawaiian lands. Once these lands are desecrated the damage is irreparable. You the leaders who we trust to do what is right
are responsible to protect our lands. Hawaii is only so big. If someone does not draw the line then what will our future generations have? Do what is right. Do what is Pono. Protect Mauna Kea from further desecration. Science can be found anywhere else. But there is only ONE Mauna Kea. Mahalo
