  - Review meeting with IBM Consultants – Wilson Lau and Kyle Hunt reported that lack of speed is recognized as a problem. Several trouble tickets are being reviewed by IBM.
  - The Review of Systemwide Reporting by Hans Peter L’Orange/UHCC Reports requirements was discussed. Questions regarding who is reading the report, who is accountable, what problems are we trying to solve? Concern that the report captured all the comments which caused loss of emphasis/focus on the big issues.

- Placement – Cheryl Chappell-Long reviewed shifting COMPASS Uploader to the OVPCC by the end of the academic year, last Placement Advisory Working Group meeting, and using Algebra II end of course exam as a placement method.
