**ANNUAL REPORT ON THE
RESEARCH AND TRAINING REVOLVING FUND
2013/2014**

INTRODUCTION

The Research and Training Revolving Fund continues to be very effective in stimulating research, which results in extramural contracts and grants. This report summarizes the investments of the Fund for 2013-2014 and indicates the effectiveness of this support. Procedures for awarding grants from the Fund were the same as in previous years.

The Governor's approved guidelines for the administration and investments of the Fund:

1. The funds were administered by the Vice President for Research & Innovation (VPRI), the Mānoa Vice Chancellor for Research (VCR), and the University Research Council within the general guidelines approved by the University President.
2. The funds were administered in the four categories described under Part I – Fund Investments.

I. FUND INVESTMENTS

Pursuant to HRS Section 304A-2253, \$50,698,277 was deposited into the Research and Training Revolving Fund and invested as follows:

A. Scholarly Development Fund

The Scholarly Development Fund serves two purposes. The first is to provide seed money support to develop research projects or training programs for extramural funding. The second is to provide travel funds for University professionals that enable them to communicate research and new ideas at international, national or regional meetings, and to permit contact with extramural funding agencies.

Investments

A total of \$350,000 was invested to Professional Travel by the Mānoa VCR distributed as follows:

The council reviewed 293 travel requests totaling \$672,974. It made 244 awards totaling \$334,649 or 49.73% of the amount requested. Table 1 lists the Professional Travel recipients.

Investments for 2013-2014: \$350,000

B. Facilitating Services Fund

The Facilitating Services Fund is used to support the research, instruction and public service missions of the University units that generated overhead revenue.

The fund is invested in proportion to the overhead revenue generated by each of the units.

Effective FY 1999, the Deans and Directors of the units were granted the authority to expend these funds at their own discretion.

Investments

A total of \$28,765,068 was invested to the fund. Table 2 lists the distribution by unit.

Investments for 2013-2014: \$28,765,068

C. Project Development Fund

The Project Development Fund is used to facilitate research and training in new or developing fields, provide matching funds for the acquisition of research equipment, and to promote participation in professional organizations.

Investments

The Mānoa VCR made 54 awards totaling \$10,631,111. Table 3 lists the Project Development Fund recipients.

\$1,000 was invested to the Student Excellence in Research Awards by the Mānoa VCR. Table 4 lists the Student Excellence in Research Awards recipients.

Investments for 2013-2014: \$10,632,111

D. Vice President for Research and Innovation Investments:

A total of \$8,167,958 was invested to the VPRI and funds were invested.

The VPRI made 55 awards totaling \$12,641,778 in support of programs summarized in Table 5.

The following amounts were designated for research infrastructure, \$8,167,958:

RCUH Management Fees	4,526,915
UH Connections	45,500
A-133 Audit	343,725
Systemwide Research Support	3,251,818
TOTAL	8,167,958

Investments for 2013-2014: \$20,809,736

II. RESULTS OF SEED MONEY AND PROFESSIONAL TRAVEL AWARDS

A. Extramural Awards to Recipients of Seed Money

Recipients of these funds are actively seeking new sources to support their research. The Revolving Fund is very important in this connection, especially for younger faculty not yet having established a track record. Once they have initiated research with seed money, they can cite initial results, and thus make a much stronger case for receiving additional support.

Results from seed money are not always immediate, but may occur sometime after a seed money award. The results reported herein thus may be due to funds invested in earlier years. The Fund was initiated in 1975.

The Research Council awards for seed money from the Revolving Fund give due consideration to the potential for generating extramural support. Faculty receiving seed money awards must indicate their plans for extramural funding to further research. During the last fiscal year, no awards were given for seed money.

B. Extramural Awards to Faculty Receiving Travel Support

The recipients of these travel awards are all productive scholars with active research agendas. The presentation of their research results at major professional meetings allows the investigators to meet with potential sponsors and exchange ideas with colleagues. It also exposes the broader professional community, including funding agencies, to the work being accomplished at the University of Hawaii, results in increased professional recognition of investigator and the University, and leads to additional funding.

III. TOTAL EXTRAMURAL SUPPORT FOR RESEARCH/TRAINING, 2012-2013

Attached summary table, Table 6 for research and non- research projects, each of which gives comparative figures for awards made to the University, the past five years.

In 2013-2014, research awards worth \$238,286,786 and training awards worth \$154,028,169 were received.

CONCLUSIONS:

As summarized in this report, the Research and Training Revolving Fund is essential to the effective operation of the programs administered through this office. It is one of the most important sources of support this University has. The Governor and the Legislature should be highly commended for their foresight in establishing the Fund as an investment in the health of research and training at the University, and for the provision of the additional funds for equipment, repairs, and maintenance.

Respectfully submitted,
